FIFTEEN CENTS

Village To Elect 3 Trustees

2 School Board Contests Saturday

Voters in the village of Antioch will go to the polls next Tuesday to elect three village trustees for terms of four years.

There are six candidates. The People's Party includes incumbents J. I. (Irv) Walsh and Arnold W. Weber, and Diane (Willie) Kasik. The Concerned Citizens Party includes former mayor Raymond P. Toft and Dale W. Frasch and William G. Carney.

Voters can either vote a straight ticket by putting an "X" in the circle of either party. Or they can split their tickets by putting their "X's" in the squares by the name of each candidate. A specimen ballot appears elsewhere in today's Antioch News.

THERE ARE two precincts. Precinct 1 (persons living west of Hy. 83) will vote at the village hall while precinct 2 (those living east of Hy. 83) will vote at the Scout House, 741 Main St.

The election is only for voters living within the village of Antioch. Voters can still register before or on the day of

the election at the township office.

Pictures and stories about each of the candidates begin on page 5 of this issue.

ON SATURDAY, school district voters will make decisions on who their board members will be.

In the Antioch Grade School district, five persons are seeking the two three-year terms that are open.

They are incumbent LaVerne Woods, former board member Milo Bailey, and Robert Olson, Charlene Langosch and William Slater. Pictures and information about these candidates begin on page 7.

The polls will be open from 12 noon until 7 p.m. Saturday at the Antioch Lower Grade School and at Channel Lake and Oakland schools.

ALSO ON SATURDAY, voters will choose among three candidates who have filed for the two three-year term

PAUL REVERE'S RIDE

Are You Ready For This?

Antioch is in for another treat on Friday night, Apr. 18.

Paul Revere's ride will be re-enacted.

That's right ... Paul Revere's ride ... on its 200th anniversary. It is being planned by the village Bicentennial committee to call attention to the fact that Antioch is planning a series of celebrations for the 200th anniversary of our country.

William E. Brook, chairman of the local Bicentennial committee, said that Police Chief Jack Wells has agreed to play the part of Paul Revere.

And he will be chased on horseback by three Redcoats. The chief has a collection of old guns, so some muskets will add to the excitement.

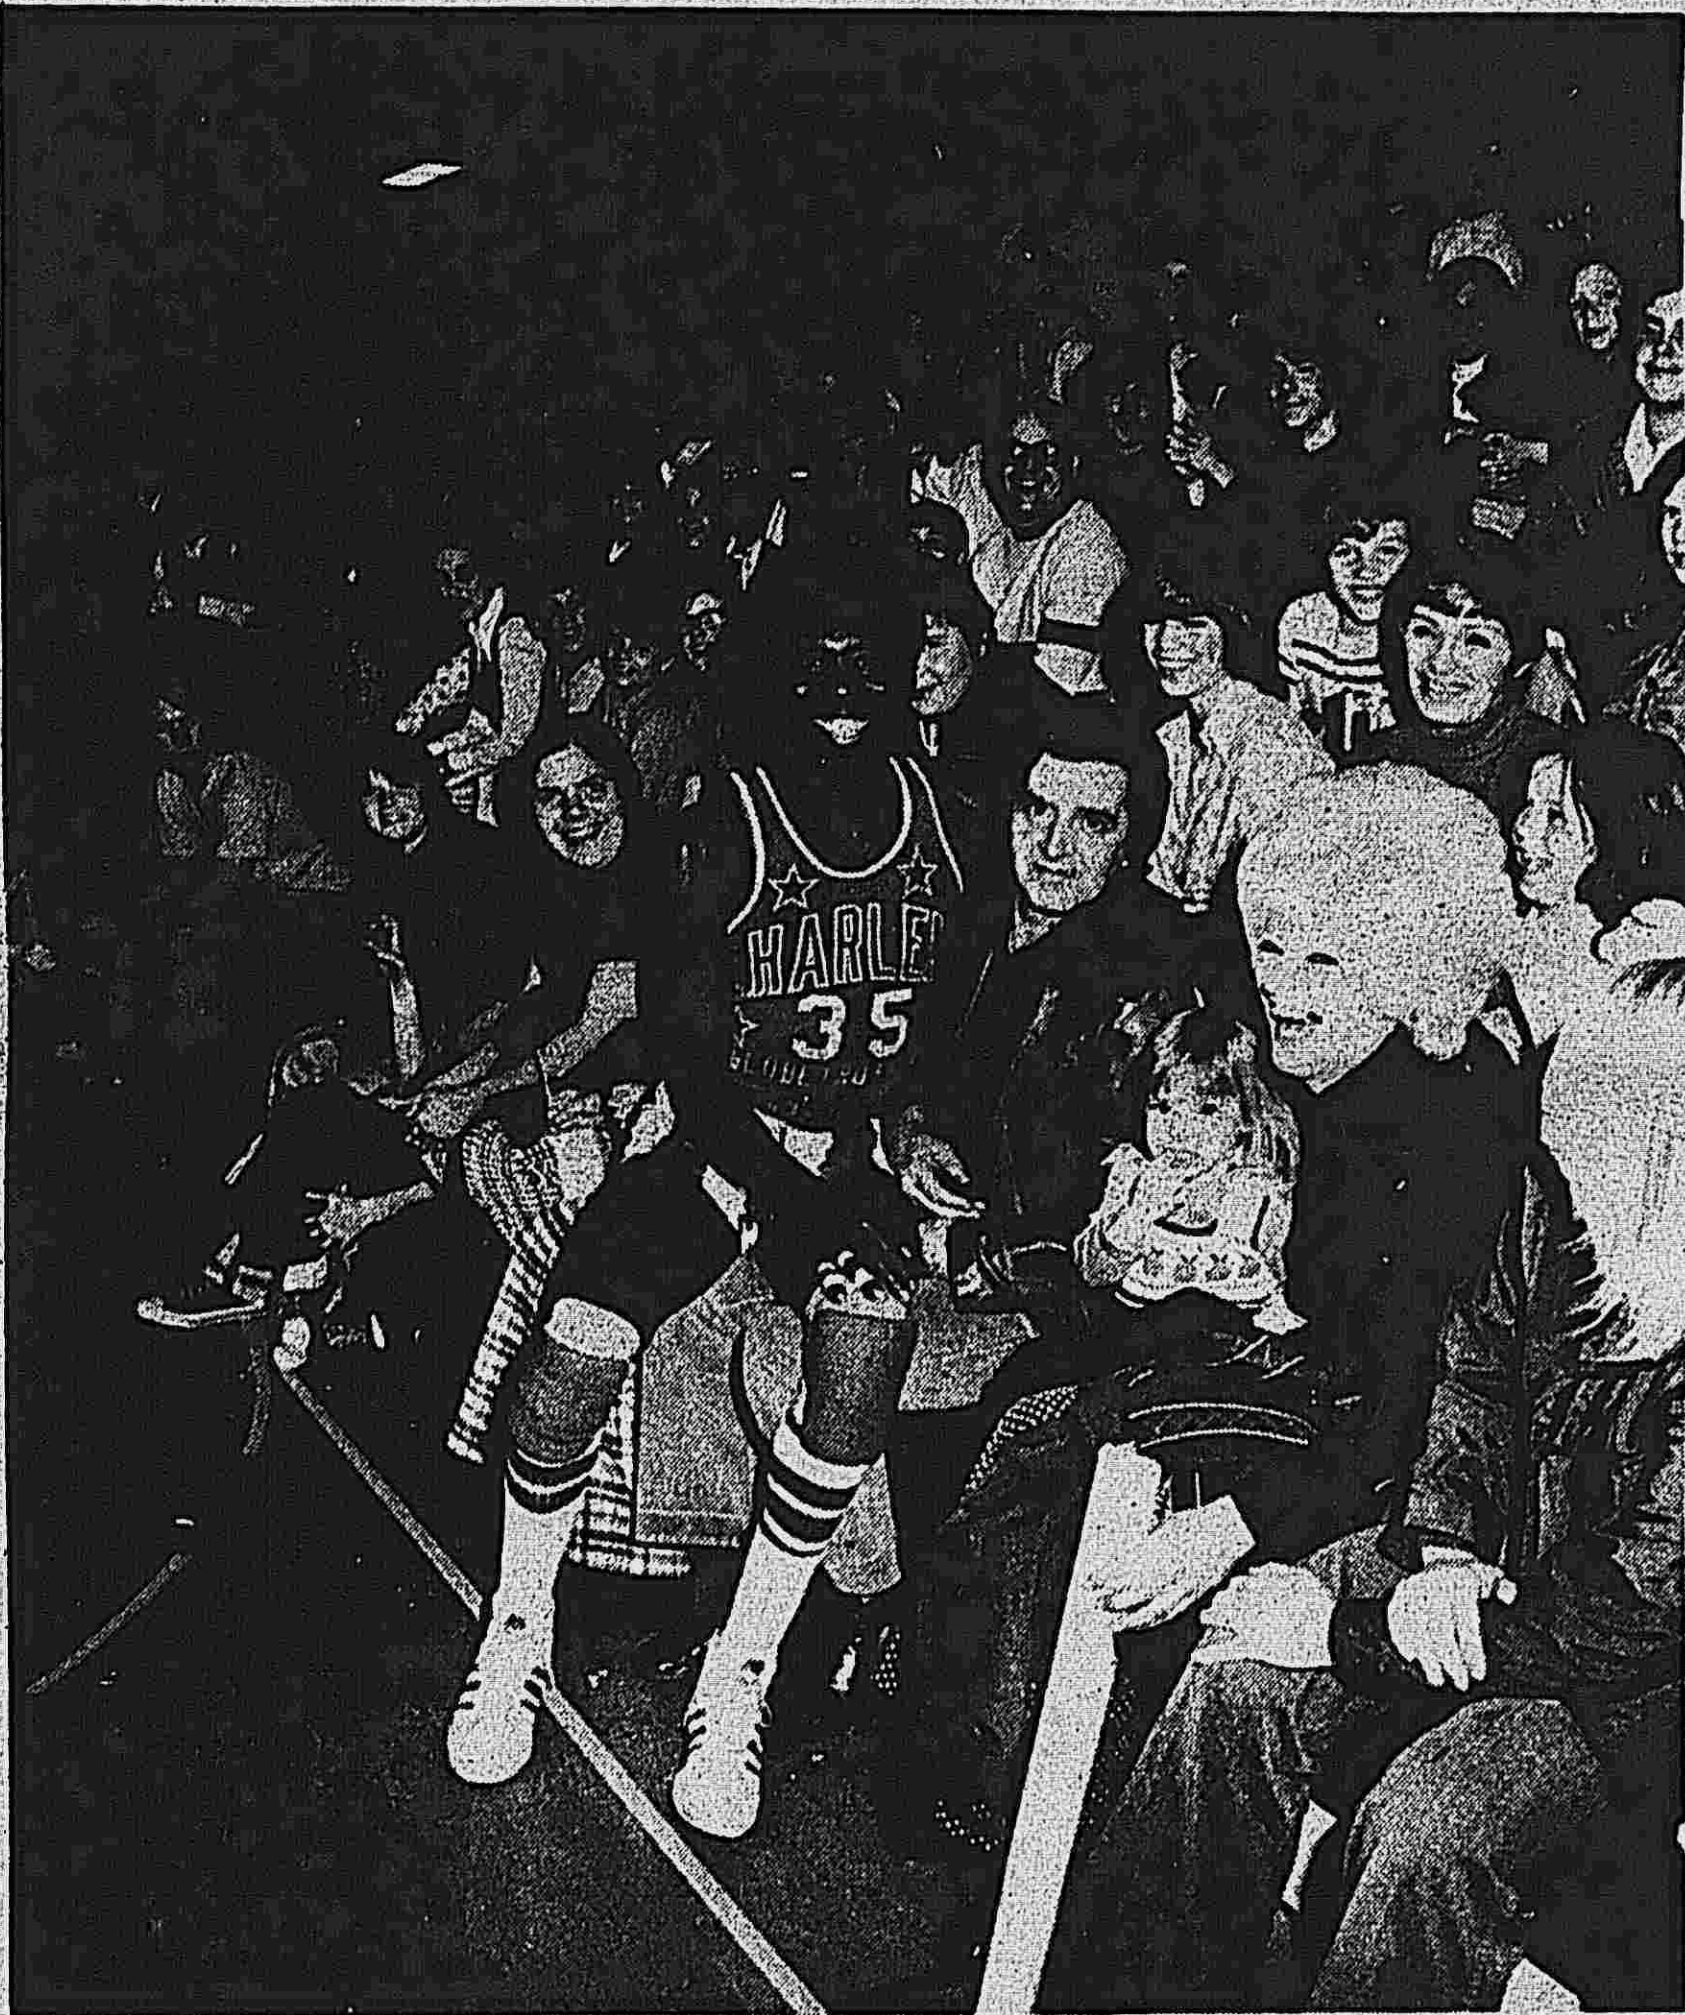

It should be quite a show for youngsters (and adults too) who probably will line Main St. for the event.

And, oh yes, Pastor Steve Williams will be ringing the bell in the Methodist Church.

Fun? Just hang around Antioch. It happens here all the time.

One Liner

"A good listener is not only appreciated, but after a while he knows something."

THE HARLEM GLOBETROTTERS came to Antioch last Thursday and the star of their show was "Geese" Ausbie, who spent most of the night clowning with members of the audience. The little girl (just to the right of Geese) is Kimberly Loranger, 2, of Rt. 2, Box 445, Antioch. The rest of the fans, unfortunately, are unidentified. But the entire crowd of 2,000, fortunately, enjoyed the Globetrotter show tremendously. (More pictures inside.)

Village Buys Cars

The Antioch village board agreed Monday night to buy three new vehicles:

- A police squad car from Teresi Chevrolet-Oldsmobile for \$3,000, including trade-in.

- A six-passenger station wagon for the fire department, also from Teresi, for \$4,408, including trade-in.

- And a pick-up truck for the public works department, from Peterson Brothers Implement Co., for \$3,349.

Those were the low bids opened at the board meeting.

THE TRUSTEES also approved pay raises for village employees, beginning May 4.

The chief of police and the superintendent of public works each will receive \$17,500 a year, the superintendent of water and sewer \$15,000 a year, the village collector \$12,500 and the treasurer \$9,000.

The building inspector's salary was raised to \$13,000.

Police department personnel will receive a 5 percent increase.

Longevity factors add to the

salaries in some cases.

THE VILLAGE planning commission will meet tonight at 7:30 and the next regular meeting of the village board will be at 8 p.m. on Monday, Apr. 21.

In other business Monday night, Mayor Robert Wilton invited all citizens of Antioch to attend Sunday's 2 p.m. dedication of "Doc" Jensen park in Sequit Terrace. Following the ceremonies, a coffee hour will

Time To Plan For County Fair

Lake County Fair enthusiasts are circling Wednesday, July 23, on their calendars.

The annual fair opens at 9 a.m. that day at the fairgrounds in Grayslake.

As usual, a rodeo, demolition derby and other entertainment is planned.

There will be new and additional classes in the fine arts department, such as paintings, photography, an-

tiques and ceramics.

Persons planning to enter the various competitions, including agriculture and home economics, can write to the Lake County Fair Association, P.O. Box 216, Grayslake, Ill. 60030. The association will then send out detailed information.

**LAKE REGION HOMEMAKERS** Ann Connors (left) and Shirley Turney proudly display the banner that will be their contribution to the Bicentennial luncheon Friday, Apr. 25, at the Holiday Inn in Gurnee. These two Lake Region homemakers designed and made the banner. Angela Maras is program chairman for the luncheon. Twenty-two other units from Lake County will display their original banners, adding to the spirit of the event. Phyllis McMillen will make history come alive with her new Bicentennial Historical Pageant of "Famous American Women."

## Program Apr. 16 At Faith Lutheran

On Wednesday, Apr. 16, at 7:30 p.m., Faith Evangelical Lutheran Church, 1275 S. Main St., Antioch, will welcome Dr. Clifford Burdick of Tucson, Ariz., to present an illustrated

lecture on the subject of Biblical creationism.

Dr. Burdick is a consulting geologist and has been a creationist scientist for more than 40 years.

He has worked extensively in his field in an effort to show that present-day scientific evidence supports the historical record of the Bible.

## Program on Quilting Recommended

A slide presentation on the evolution of quilting will be presented next Monday at the

College of Lake County.

The program by Bernice Weinberg, discusses quilting

from its European beginnings to its 1975 applications. It will begin at 1 p.m.

BERNARD IZZO

## Choral Concert Sunday

Sunday is the day of the Antioch High School Annual Spring Choral Concert and tickets for the event are rapidly disappearing.

This year's program, to be held in the auditorium at 3:30 p.m., will present selections by the various vocal groups of the Fine Arts Department.

The Madrigals, who recently placed first in the Illinois high school contest, will be sharing the spirit of this flowering season along with the Freshman Girls Chorus, the All-School Choir, and the 70-voice Acapella Choir.

A solo will be presented by Paul Carmer who also recently received a first place rating at the state contest.

The featured guest of the afternoon will be Bernard Izzo. Mr. Izzo has sung with the Lyric Opera and currently teaches at North Central College in Naperville. Some Antioch residents remember him as the bass soloist from the "Messiah," presented during the Christmas season at the Abbey.

The welcome mat is placed for all members of the community to enjoy an afternoon of song and season spirit. Tickets are available at the door and from any choir member.

## 5 Candidates For CLC Trustee

There are five candidates for the two openings on the board of trustees at the College of Lake County.

They are Eleanor S. Rostron and Juanita F. Beger, both of Waukegan; Robert L. Schoenberger of Fox Lake, James A. Eanes of Mundelein, and S. Robert Hoekstra of Grayslake.

The Election will be Saturday and precincts include Antioch Community High School, the Pleviak School in Lake Villa and the B.J. Hooper School in Lindenhurst.

There also are other precincts in Lake Villa. Voters will receive ballots when they appear to vote for their regular school board elections.

### BEE LINE

The bee can perceive ultraviolet light which is invisible to humans and uses ultraviolet designs in flowers as a guide to landing when collecting nectar.

## Editorial Comment

### Chipped into concrete

The Supreme Court tore a corner of our carefully woven political fabric when it ruled that regulations of national political parties henceforth shall prevail over the votes in state primary elections. The issue was narrow; the result was unfortunate.

The ruling chipped into judicial concrete a ruling by the 1972 Democratic National Convention awarding seats to one rival Illinois delegation at the expense of another.

Fine. Except that no "national interest" is even vaguely served by placing the rules of a voluntary association, even one that is interwoven in our laws, over the rights of a majority of citizens to determine their own political rules.

### The Town Crier

It seems that everyone we've talked to was at the Harlem Globetrotters' show last Thursday and it also seems that everyone really enjoyed the performance.

It was a delightful show and we're happy for all the kids who were there. Seeing and enjoying the Globetrotters is an important part of life. Even those of us who have watched them five or six times still thrill to their magic presence. They're like Jack Benny was. They do the same stuff every time, but it's always great.

WE WERE talking with Joe Celentano, who has been the

Globetrotters' referee for 10 years. He had a virus last week, so his understudy was filling in.

The Trotters played in Waukesha, Wis., the previous night and were scheduled to fly out of Chicago the next day for a performance in Oxford, Miss. Soon they go to Europe and Joe Celentano will go with them for the 10th straight year.

"I've been with them in 98 countries," he said.

"GEESE" AUSBIE was nothing but a clown during the two hours or so that the Globetrotters were on the floor entertaining the audience. But you should have seen him

during halftime in the locker room. A quick card game was going on and Geese and the others were mighty serious. No smiles.

"They play cards on the bus all the time," said Celentano. "And the pots are usually \$100 or \$150."

The Globetrotters and their stooges, the New York Nationals, travel separately. Traveling all the time can be a drag, but the money probably makes it worthwhile and at least the card games are interesting.

THERE ARE two Globetrotter teams touring the country, Celentano said. The other team has some big names, too - Meadowlark Lemon and Curly Neal. When they go to Europe they will combine the two squads, taking the 10 top players.

Geese Ausbie, Marquis Haynes, Theodis Lee, Meadowlark Lemon and Curly Neal will be five of them. The first three were here last Thursday and they made it a delightful night for Antioch.

WE NOTICE that the College of Lake County is going to show "The Red Balloon" and other children's films on Saturday at 2:30 p.m. in the Quiet Lounge on the college's north campus. The program is free and open to the public.

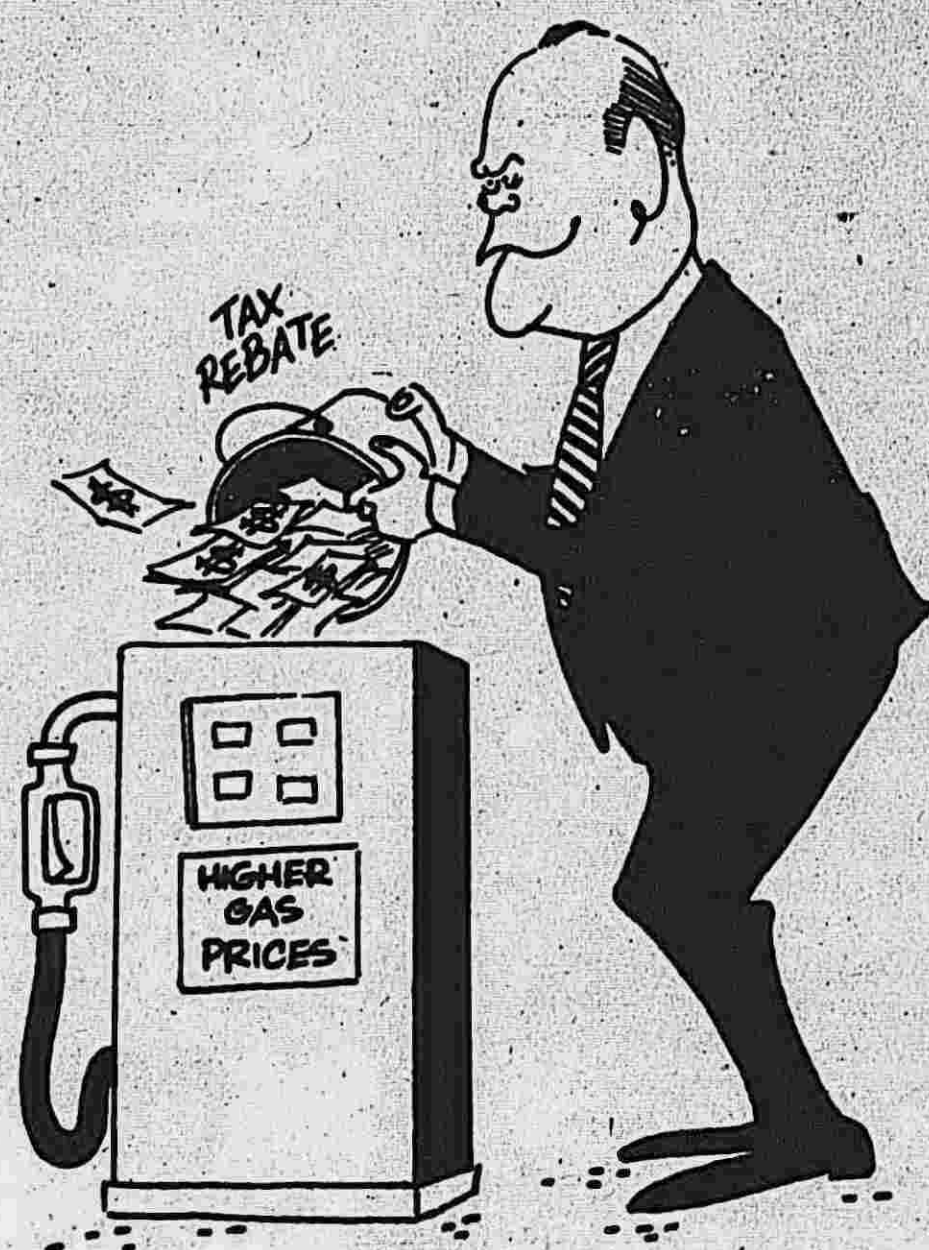

Anyone who has children between the ages of perhaps 5 and 13, and they haven't seen "The Red Balloon," please don't let them miss it.

In is one of the most beautiful and meaningful movies we can recommend for your children. And it will be uplifting for you adults, too.

Hear ye!

At a party a woman remarked to her husband: "That's the fifth time you've gone back for more punch. Doesn't it embarrass you at all?"

"No," he answered, "I keep telling them it's for you."

### BARRY GOLDWATER

## CIA Has Done Outstanding Job

By SEN. BARRY GOLDWATER

Disclosure of the story about the CIA lifting a Soviet submarine with nuclear warheads up from the depths of the ocean should have been greeted with cheers from the American people.

I say that because the incident proves that the CIA was doing the job it was set up to do.

Somehow in recent months we have gotten all turned around in our thinking on national security. For that reason the CIA success in raising the Soviet sub was greeted by silence, skepticism or criticism by the American people.

NO NATION the size of the United States has ever been a successful world leader without a successful intelligence community both at home and abroad. Nevertheless, at this time and in this country there are forces at work which would destroy our most effective instruments of international intelligence.

For some reason, a large amount of the news media seems to believe that anything done in secret by any government department is following an evil course which is unworthy of our national heritage.

The CIA has done an outstanding job, not only in raising the Soviet sub but in other areas of intelligence. Yet, morning, noon and night it is subject to criticism by liberals in Congress or in the media who believe there is something wrong with everything the agency touches.

I CAN TELL my readers this: If I had been the President of

the United States and learned the CIA was keeping track of only 10,000 people in this nation of 230 million people, I would have been more than a little upset.

I would have been upset because of what I see in the nation's capital - people able to steal top-secret documents, sell top-secret documents, write about top-secret documents, all of which were divulged by someone without authority.

When I think about Daniel Ellsberg, I think we need a stronger CIA and not one that is so subject to criticism that we are losing the best men the world has to offer in the field of intelligence.

WE NOW HAVE a Rockefeller commission studying the CIA. We also have a Senate committee (Of which I am a member) studying the CIA. The House has a committee studying the CIA. And now it's been suggested that three more committees be appointed to study the submarine incident in which the CIA played a part.

The independent newspaper dedicated to the thoughts and feelings of the people of Antioch.

# 6 Candidates For Village Trustee

**William G. Carney**

Bill Carney is a lifelong resident of the community. He has been a member of the fire department for 13 years and holds the position of lieutenant and training officer.

He has been active in many community activities.

Bill and his wife, Mary, have three children: Cindy, Billy and Bobby. They live at 503 Crest Lane and Bill has been employed for the last 16 years with the Commonwealth Edison Company.

His work takes him to all parts of the Antioch community and surrounding areas, and he says this "has made me well aware of the problems of a growing area."

Bill says his campaign hopes are:

-To alleviate the traffic congestion in the business district.

-To improve the conditions for the children walking to the Upper Grade School by providing sidewalks.

-To provide a safer means for Oakwood Knolls children to get to town. This also would warrant sidewalks," he said.

-And to help plan more activities and programs for the children, including more ball-parks rather than expensive mini-parks."

**Dale W. Frasch**

Dale Frasch was born and raised in Chicago and moved to Antioch in 1967. He lives at 479 Edgewood Dr. and has three children: Diane, 8; Suzanne, 6, and Scott, 4.

Dale is a member and former secretary of the Oakwood Knolls Homeowners Association. He holds the rank of lieutenant and is secretary of the Antioch fire department, and is certified by the state of Illinois as a firefighter. He is one of two certified basic

instructors on the department.

Mr. Frasch is a member of St. Peter's Church, the Loyal Order of Moose, and a former member of the village planning commission. He is employed as a senior mechanical engineer by Cherry Electric Products Corp. of Waukegan.

Mr. Frasch said he is seeking election "because of concern about the people's representation on the village board."

He said he is concerned about "village spending and is against spot zoning, and he is concerned about the landfill project, requiring the help of the village for Environmental Protection Agency approval."

Mr. Frasch said he "would work for systematic growth and development of the village" and that he questions "why the CABL project has been shelved by the village before election."

He said he would work for improved storm water drainage, traffic control and parking, increased police protection and recreational facilities of the type to help keep the young people of Antioch off of street corners.

"All of these points were found to be of main concern to the people during our door-to-door campaign," he said.

**Diane (Willie) Kasik**

Diane (Willie) Kasik has lived in the Antioch area for the past 25 years and now resides at 753 Hillside Ave. with her husband, Dan, and their seven children.

"Actually the children were one of my main reasons for deciding to run for this office," Mrs. Kasik said. "I would like to see Antioch be the best possible place for them to live and grow up in."

"One of my main desires," she said, "is to see Antioch remain the fine small town it is now, with some necessary improvements. However, I do not wish to see it become stagnant nor dormant. If possible, I believe we should look into the possibility of annexing as much vacant land as sensibly possible. I would want to see it remain as field or farmland, but have it be available if the need arises."

"Another issue I feel very strongly about is recreational facilities," Mrs. Kasik said. "I feel the village has made a fine start with the building of Jensen Park, ice skating ponds and co-usage of the high school's new tennis courts. However, I hope it's just a beginning. I would like to see more of this type facility and less of the 'canon' influence for our town."

"I think there is a definite need to enlarge and improve our parking facilities as I'm

sure anyone who shops in town will agree. I would welcome any ideas or suggestions on this subject as the only possibility I can see is to have a parking area behind the stores on the East side of Main Street. Although I am told this has been talked about for the last 20 years without any results," she said.

"The storm water drainage is a problem we tend to forget about until a crisis is upon us and then it's too late. To improve and maintain proper drainage is a must as is street maintenance. Street work reminds me of housework, it's a never ending job but has to be done. I think it should be taken care of the best possible way realizing this probably wouldn't be the least costly at the start but over a period of time we would come out ahead. I feel the village monies are there to be used but to be spent as wisely as possible," Mrs. Kasik added.

"I have no background in politics," she said, "so all I really have to offer is myself. I do have a big concern for the village. Having a growing family we plan on being here for a long time and only the best is good enough."

**Raymond P. Toft**

Raymond Toft, who was mayor of Antioch for eight years, is seeking a village board seat as a member of the Concerned Citizens Party.

Ray has worked as a farmer, worked for the Dairy Improvement Association, owned a gas station for 22 years and was a member of the Antioch grade school board.

He went to grade school and high school here and, except for 21 months in the army, has lived in Antioch his entire life.

Ray and his wife, Joan, will celebrate their 25th anniversary this September. They have two daughters, Debbie and Kathy.

Mr. Toft says he feels some of the problems facing Antioch today are zoning and annexations, sewer and water, crime, and the controlling of expenditures.

During his eight years as mayor he says he balanced the village budget and maintained a stable tax rate. He also engaged professional planning services to enhance the village growth.

During his years as mayor, Mr. Toft said, the village constructed new police facilities and implemented 24-hour dispatch. It also extended sanitary sewer facilities to meet the needs of the entire village and maintained a low water and sewer rate.

While he was mayor, Toft points out, Antioch also embarked on a comprehensive

street resurfacing and sidewalk repair program and increased village street lights by 50 percent.

**J. Irving Walsh**

J. Irv Walsh was born and raised in Antioch and has been active with Little League and Boy Scouts.

He is a 29-year veteran of the Antioch fire department and now serves as assistant chief. He has been treasurer of the department for 15 years.

Mr. Walsh lives at 471 First St. with his wife, Eleanor, and their children, Sue, Bob and Diane.

Mr. Walsh is employed at the Rittenhouse & Embree Lumber Co., formerly Antioch Lumber, for the past 37 years.

He has been a village trustee for 12 years and as a member of The People's Party says he will, "work toward orderly growth and development of our village, develop better streets as well as traffic and parking patterns, and construct new sidewalks and improve others."

Mr. Walsh said he also favors increased recreational facilities in Antioch, a better understanding of senior citizens problems, and will work toward the continued improvement of water facilities and storm water drainage."

"The widening of Orchard St. is a must in the next two years," Walsh said. "The present board of trustees is trying, and I will too if elected, to get a grant from the government to help us defray the expense of updating our present sewers."

**Arnold Weber**

Arnold Weber and his wife, Mabel Lou, reside at 299 Maplewood Dr. They have 5 children; 2 are married.

Arnold has been employed at American Motors for 30 years as a sheet metal worker. During that time he has been a member of UAW Local 72 and has served as a steward, chief steward and executive board member.

He is presently serving his first term in office as village trustee.

Mr. Weber is a member of St. Peter's Church in Antioch. Both Arnold and Mabel Lou are graduates of Antioch Community High School.

He said he feels the village has progressed in the past four years. Some of the improved projects include the sewer plant, streets, parks, parking and storm water drainage. Trustee Weber said he will continue to upgrade water facilities and storm water drainage, work toward an orderly growth of the village, plan new and improved sidewalk conditions, develop parking areas, and work to solve traffic problems.

He said he feels his deep-rooted concern for these and other problems facing the village is a valid reason to return him to office for a second term.

Weather permitting, the Mr. and Mrs. World Series of Fresh Water Fishing will take place this Sunday at Channel Lake.

Movie Friday At Free Church

A movie titled "The Cross and the Switchblade" will be shown at The Antioch Evangelical Free Church Friday at 7:30 p.m.

Pastor Bernard Fosmark said he is sponsoring the film here "because of its strong dramatic depiction of many of the overwhelming problems of modern life and how one man sought to change them."

Adapted from the autobiographical best-seller of the same title, the film relates experiences of Rev. David Wilkerson after he entered the New York ghettos for ministry among Puerto Rican and Black street gangsters and dope addicts. His crusade on three occasions nearly cost him his life.

Pat Boone stars as the

minister. Co-starred are Erik Estrada, as the gangster who threatened the preacher's life, and Jackie Giroux, who saw her romance with the gangster shattered because she was caught up in drug addiction.

Mr. and Mrs. Richard Teiper of 2723 Densmore Drive, Toledo, Ohio, have announced the engagement of their daughter, Kathleen Susan, to Donald W. Olson, son of Mr. and Mrs. Clarence B. Olson of Antioch.

Oakwood Knolls Group Enjoys Annual Dance

Everyone who attended the annual Oakwood Knolls Property Owners Association's Spring Dance last Saturday forgot all about the recent snowstorm as they walked into St. Peter's Social Center.

It was transformed into a Springtime atmosphere for the dance. The "Shower of Flowers" motif included an umbrella at the entrance to protect the party-goers from the cloud and rain suspended

overhead. And there was a rainbow with a pot of gold at the end of it.

The lucky main prize winners were Ron and Kathy Horton who received the \$200 in savings bonds donated by Lyons-Ryan Ford-Mercury, Frank and Roberta Warren received the 8-track stereo tape player donated by John Teresi Chevrolet-Oldsmobile, and Estelle Gatch who received the chair donated by R&R Upholstery.

Gene and Terry Bryn won the prize for selling the most tickets.

Everyone enjoyed the delicious buffet of roast beef, ham and homemade meat balls, mostaccioli, salads and desserts.

The "Shelter" provided the lively music for dancing.

The sincere thanks of the Oakwood Knolls Property Owners Association go to Tenzia Jandula and Avon Cote, co-chairladies who spent many hours preparing for the dance, and to the many people who worked so hard before, during and after the dance to make it so successful.

Jaycees Plan Fish Fry

The Antioch Jaycees are planning their second Fish Fry at a local restaurant on Friday, Apr. 25 at 5 p.m. The prices of the dinners are \$2.95 for adults and \$1.50 for children.

The Jaycees are giving away two prizes. Tickets can be

purchased at the door the night of the Fish Fry.

KATHLEEN TEIPER

5 Seek 2 Openings on Grade School Board

Milo Bailey

Milo Bailey is a graduate of Tri State College (Angola, Ind.). Mr. Bailey then spent the next nine years with U.S. Steel Corp. as a financial analyst and manager of system development. He has spent the last five years in the field of marketing, specializing in Computer Communication Applications for the Raytheon Co.

He is currently a member of the Antioch Lions Club, St. Stephen Lutheran Church Council, Committee Chairman Cub Pack 192, Antioch Little League team manager, and previously served on the Antioch Grade School Board of Education.

He lives at 688 Hillside Ave. with his wife Sandra, daughters Candy, Chris, Barb and son Tom. His two oldest children attend Antioch High School and the other two children are in the Antioch Grade School.

Mr. Bailey has stated he is currently running for the school board because of his "deep concern for the direction of education in the Antioch

community." He said he would like to see open discussion between the community and the school board.

This will aid the board in its decisions and enlighten the Antioch community of the school board direction," he said. "This can be accomplished through increased community involvement in board meetings or special sessions scheduled through the various PTO groups.

He has also taken the position that he would like to see periodic evaluations of the school system to insure that the children of the Antioch area are receiving an adequate education program. He said he also feels it is important that studies are developed to investigate ways to maximize education and minimize costs. "Some of the specific areas which need more development," Mr. Bailey said, "are curriculum coordination between the various grade school systems and the Antioch High School and further investigations into the financial or educational benefits of a Unit District School System.

Scientists warn of ozone danger

IRVINE, Calif. — If aerosol spray use continues at the current rate, stratospheric ozone levels probably will drop by 5 per cent in 1995 and ultimately by more than 15 per cent, according to Dr. F. S. Rowland, professor of chemistry, University of California at Irvine.

A drop in the ozone level leads to increased amounts of ultraviolet radiation resulting in possible damage to the eyes, sunburn, aging of the skin and skin cancer.

Charlene Langosch

Charlene A. Langosch, 33, lives at Loon Lake with her husband, Robert, and their three children. Two of their children attend Oakland Grade School and the other is at the Upper Grade School.

Mrs. Langosch lived at Channel Lake as a child and attended Antioch schools. She worked for many years at Fascination Beauty Salon, which was owned by her mother.

"Presently I'm not working," she said. "I'm a Girl Scout leader and very interested in Boy Scouts, and have done volunteer work in kindergarten."

"I have been asked why I want to run for school board," she said. "I guess you might say my reason is children."

EXPLORER I LAUNCH
Explorer I, the first U.S. earth satellite, was launched at Cape Canaveral on Jan. 31, 1958.

Robert Olson

Robert N. Olson lives at 281 Maplewood Dr. with his wife, Joan, and three daughters: Tina, Erika and Amy.

He was educated in Minneapolis, Minn., and at George Williams College in Downers Grove. He has a major in group work education.

Mr. Olson works as data processing manager for Crown Life Insurance Company of Illinois.

"If elected," he said, "I want to see the board working, not for, but with parents, teachers and administrators to provide all Antioch Grade School

be held at the high school.

Fern Watson of the Antioch Woman's Club presented a check for \$200 to trustee Bill Seemann.

"Maybe it can be used for a drinking fountain," Fern said. "Also, we hope to contribute more money for the park in the future."

IT WAS announced that May 5-10 will be spring clean-up week in the village.

Trustee Irv Walsh said he received comments from several citizens congratulating the public works department for the good job of snow-plowing they did last week, keeping local streets open.

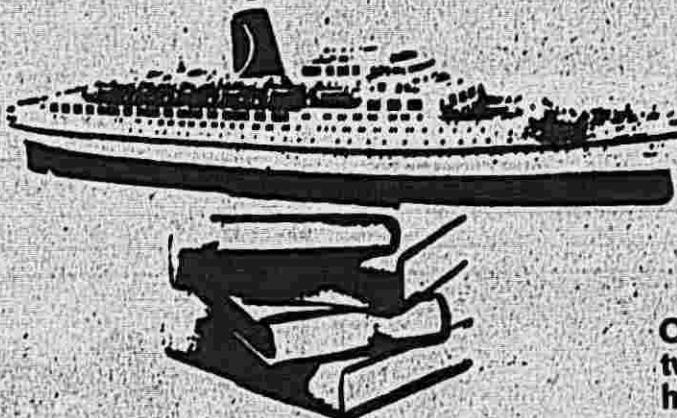

The trustees agreed to waive the cost of the building permit for Little League baseball officials who plan to build a new concession stand near their field. The present concession stand will be used for storage.

THE TRUSTEES okayed the promotion of Charles Miller to sergeant of the police department, effective May 4. Miller has been a patrolman and juvenile officer.

It was announced that plans are underway to construct a replica of a saw and grain mill that once graced Sequoit Creek just west of Hy. 83. The historical site would be a project of the community's Bicentennial committee.

Election

Continued from page 1

openings on the Antioch High School Board of Education.

The candidates are incumbent Glen Moore, James Walsh and Richard Schlarbaum. Pictures and information on these candidates appear on page 9.

Howard Bonner is running unopposed for the two-year term on the high school board. The polls will be open from 12 noon till 7 p.m. Saturday. Precinct No. 1 will vote at the high school, precinct 2 at Pleviak school in Lake Villa, and precinct 3 at B. J. Hooper school in Lindenhurst.

There is no competition in school board elections at Grass Lake or Emmons school.

Girls Sign For Softball

Registration will be accepted again this weekend for the second season of the Antioch Girls Softball League.

Sue Sedivec, director of the league, said that girls can sign up Friday from 7 to 9 p.m. and Saturday from 10 a.m. to 3 p.m. at the Scout House.

The program is open to girls from the ages of 10 through 17. The younger girls must have reached their 10th birthday by Dec. 1 of 1974.

The registration fee is \$5 and one parent must be along when the girls sign up.

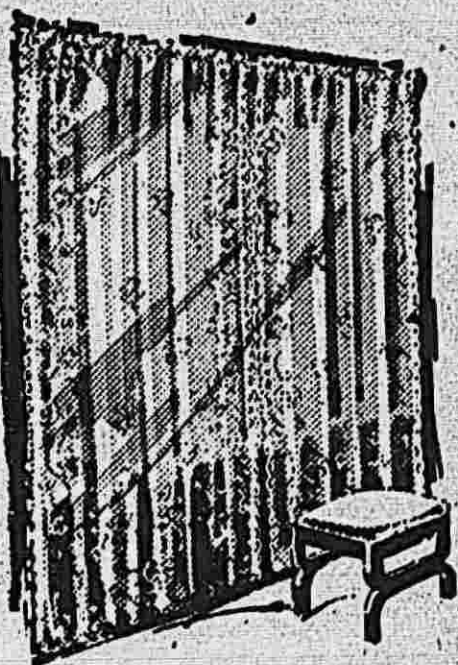

ONE OF THE ADDED attractions to last Thursday's Harlem Globetrotter show here was the flaming baton-twirling act of Joyce Ricé. She used to travel with the Globetrotters but now lives in Skokie, where her husband is a school teacher. Her appearance in Antioch was "for old time's sake" with the 'Trotters because she lives nearby.

JOHN TERESI Chevrolet-Oldsmobile BRINGS YOU THE OLD FARMER'S ALMANAC

APRIL 14-20, 1975

Sunlight pours on lake and hill.

Rake old leaves out from under your shrubs now while they are still damp... Albert Einstein died April 18, 1955... First quarter of the moon April 19... Last killing frost about now... Average length of days for the week, 13 hours, 27 minutes... Titanic sank April 15, 1912... 200th anniversary of Paul Revere's ride from Boston to Lexington night of April 18, 1775... Sardines are running off Maine now... Revolutions are not made, they come.

Ask the Old Farmer: Have you any idea how the traveling salesman earned the sobriquet of "drummer," as in "drumming up business?" H. Y., Greenville, S.C.

The traveling salesman was originally a peddler, driving a team of horses pulling a wagon-load of

merchandise. On approaching a village, the peddler would often beat a drum to announce his arrival, hence "drumming up trade."

Home Hint: Melt grated sharp cheddar cheese in canned tomato soup and serve as a sauce for an omelet or over fried or broiled fish fillets.

OLD FARMER'S WEATHER FORECASTS

New England: First part of week mostly clear and cold; end of week generally clear and warmer.

Greater New York-New Jersey: Early week generally cloudy and mild with light rain; clear and mild latter part, then light rain by weekend.

Middle Atlantic Coastal: Showery at first, then cloudy and mild; week ends partly sunny and mild with occasional showers.

Southeast Coastal-Piedmont: Cloudy to start, then intermittent rain; end of week mostly cloudy with light to moderate rain.

Florida: Week begins very warm and partly sunny, then intermittent showers in central and south; end of week rainy in central and south.

Upstate & Western N.Y.-Toronto & Montreal: Thunderstorms at first, then partial clearing and cold; rainy latter part, then clearing and seasonably cool.

Greater Ohio Valley: Heavy thunderstorms in south and east to start, then clearing; moderate thunderstorms latter part, then clearing and warmer.

Deep South: Very warm and cloudy to start, then rainy; partly sunny and warm with occasional light rain latter part.

Chicago & Southern Great Lakes: Hard thunderstorms in west at first, then moderate to heavy rain in east; heavy thunder-showers latter part, then clearing and cool by weekend.

Northern Great Plains-Great Lakes: Heavy thundershowers in central and east to start, then clearing up; end of week clear and cold.

Central Great Plains: Warm and cloudy at first, then showers in east; showers ending latter part, then clear and colder.

Texas-Oklahoma: Showers in northeast to start, then heavy rain with some hail in central and south; rain at week's end.

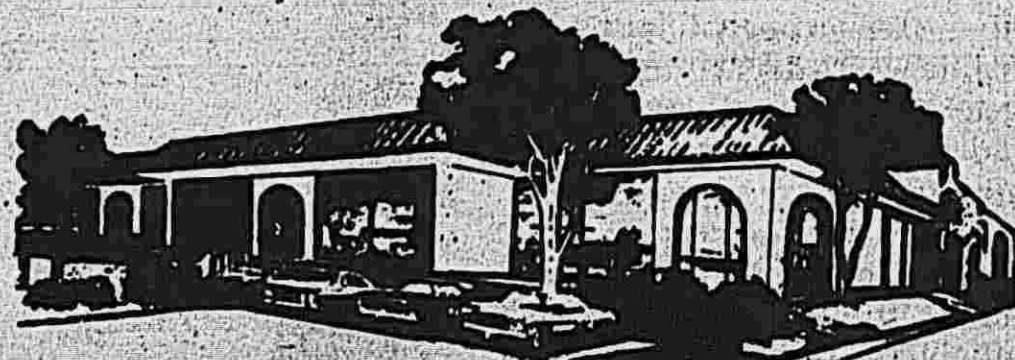

Rocky Mountain Region: First part of week partly cloudy with occasional showers; clear and cold latter part, then warming.

Southwest Desert: Early week clear in west but fairly cloudy in east; end of week clear and very warm in west with heavy local thunderstorms in east.

Pacific Northwest: Cloudy and cool to start, then rainy; end of week sunny and cold.

California: First part of week overcast in north and clear and warm in south; end of week clear and warm in north but overcast in south.

The Scouts will have a pickup on Saturday, April 12th. Money earned is to help

defray the Boy Scouts fee for summer camp at Pearson, Wisconsin.

To arrange for home pickup on April 12th, please call Roy Witek 395-5224, Mike McNatt 395-6325, Bernie Dost 395-1108.

Area limited to Antioch, Lake Villa, Lindenhurst, Channel Lake, Cross Lake and Graysville, Wis.

BE ALERT FOR SCHOOL BUSES!

3 Candidates for 2 Seats on ACHS Board

Glen Moore

Glen G. Moore is the incumbent member of the Antioch High school board. He is 39 and was born and raised in upstate New York.

He studied business administration at Michigan State University. He and his wife, Linda, have two sons: Mitchell, 7, and Scott, 2.

They have lived at 404 Surrey Lane in Lindenhurst for the last six years. He has been an account agent with the All-State Insurance Co. for the past 11 years.

"It has been my pleasure for the past three years to be a member of the board," he said. "Under the able leadership of past board president William Brook, and the present president, Robert Lindblad, I feel

much has been accomplished."

"Serving on the board is a learning experience," he said.

"I have served on the curriculum committee for two years, have worked the past few months on the development committee, and have been either the board's alternate or regular delegate to the Special Education District of Lake County."

He also has been the board's delegate to the Illinois Association of School Boards on two occasions.

"I feel we have made some real progress in our school in the past three years," he said.

"We have expanded our curriculum into starting a program for our gifted or advanced students. We also have attempted to save potential drop-outs with the use of a work-school program."

"Recently," Mr. Moore said, "I took part in the joint grade school-high school committee in formulating a workable formula with two area developers for cash donations to help offset our first year costs of new students. The cooperation of the developers and our two school boards was very rewarding."

"With the completion of our tennis courts at the high school, we have signed an agreement with the village for the general public to use these facilities. The village helped us by installing the fencing. I would like to see more sharing of school facilities whenever possible," he said.

Richard Schlarbaum

Richard Schlarbaum of 315 Maplewood Dr. has lived in Antioch since 1955. He is a graduate of Antioch High School and is married and the father of five children.

"Today's society has placed great demands on all of us and will require even more of our children," he said. "I believe that the board of education's responsibility is, as it has always been, to obtain the best possible education for all students with the funds available in the community."

Mr. Schlarbaum said he is seeking election to the Antioch High School Board of Education "to offer my assistance in helping to solve the problems that face our high school

district."

Finance, growth, development and planning are but a few of the continuing problems that face our educational system today," he said.

"For the past two years I have served as an advisor to the vocational training program of Antioch High School," Mr. Schlarbaum said. "I have learned that there are as many curriculum problems as there are job selections. We should work towards better curriculum coordination between the high school and its feeder districts."

"The development of our students is varied," he said. "Some will go directly into the labor market, others to vocational training or formal education. We must be versatile enough to offer the educational avenues which are required of these positions, regardless of which avenue the student should select."

James Walsh

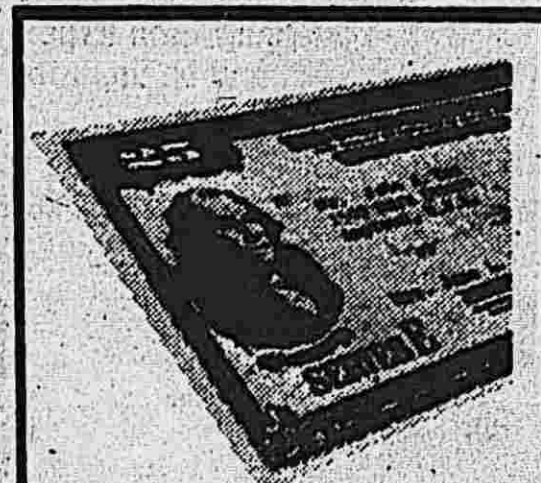

James J. Walsh lives at Rt. 2, Box 103-A, in Antioch. He is 47, married and has four children.

He has been an Antioch township resident all of his life except for four years when he lived in Libertyville.

For the last 20 years Mr. Walsh has been employed by the Metropolitan Life Insurance Company and presently is a district sales manager.

He was appointed to the high school board last October when Dr. Al Bucar resigned.

"I am interested in continuing as a board member," Mr. Walsh said. "I am vitally interested in our high school since I am a graduate and have had children as students there for the past 11 years. I also believe it is a person's obligation to contribute to the community in which he lives."

Your Guide to Fine Dining and Excellent Entertainment

THE Entertainer

Your Horoscope Guide

By GINA

ARIES: (March 21 to April 19 — Also Aries Ascendant) — An exciting romance could come into your life. It is likely to be semienduring. Resist desires to spend money on home furnishings now. Guard against excessive pleasure-seeking or worry follows.

TAURUS: (April 20 to May 20 — Also Taurus Ascendant) — Be cautious of new acquaintances. Be sure they are not "flying under false colors." Personal loss could result. Physical exercise is favored. You could gain expertise at a sport and be included on a team.

GEMINI: (May 21 to June 20 — Also Gemini Ascendant) — Stubborn refusal to listen to others who really care about you could cause serious troubles in romance or marriage. Get public exposure, dress well and put your best foot forward. You can shine in a crowd.

CANCER: (June 21 to July 22 — Also Cancer Ascendant) — Be cautious and discriminating in your thinking. Take off the rose-colored glasses and be realistic. Those seeking a new job are likely to get it. Concentrate on career instead of getting involved in romance.

LEO: (July 23 to Aug. 22 — Also Leo Ascendant) — Be protective of all family members. Seek to avoid upheavals at home. Be cautious about new romances — there could be an element of deception. Changes are fortunate in the long run, no matter how they appear now.

VIRGO: (Aug. 23 to Sept. 22 — Also Virgo Ascendant) — You could be house shopping for the future. Take time to relax and slow down your work pace a little. Good time to buy new clothes and enhance your appearance. Select casual, summer styles.

LIBRA: (Sept. 23 to Oct. 22 — Also Libra Ascendant) —

There are opportunities related to merchandising, speaking and publishing. Tighten your budget so that all that comes in is not going out. Present a creative project you've worked on to a superior now.

SCORPIO: (Oct. 23 to Nov. 21 — Also Scorpio Ascendant) — Lay careful foundations for future expansion. Relationships improve — personal tension lessens. Guard against excessive independence. Speculation is not favored now. Your view is not realistic.

SAGITTARIUS: (Nov. 22 to Dec. 21 — Also Sagittarius Ascendant) — Unfinished

projects from last year come up for completion. New companions help you broaden your outlook. Your life-view is changing for the better. Be unusually taciturn in conversations now.

CAPRICORN: (Dec. 22 to Jan. 19 — Also Capricorn Ascendant) — An opportunity for marriage could present itself — also a change of residence. Neighborhood affairs make you anxious to move. Concentrate on the deeper qualities on a loved one — compromise differences.

ASTROLOGY -- Modern Day Hocus Pocus, or an Ancient Science?

Most of us have heard (by way of popular music) that this is the "Dawning of the Age of Aquarius," which is supposed to infer a time of "Awakening Humanitarianism" and acceptance of the ancient sciences such as Astrology.

If this were in fact everything it's cracked up to be, we should all be pretty excited; however, most of us really don't care, because after all it's just a phrase in a song, isn't it? Well, isn't it? Well, maybe.

DO YOU believe that those planets way out there really have anything to do with your everyday life? Do I? Well, maybe! As accepted Sciences go, Astrology isn't really one of them. Yet, it's been around a lot longer than you may realize. I'll give you a few facts, and you can think about it.

Mesopotamian man, living about 800 BC, gave us the first hint of the ancient use of Astrology. The world wasn't as hustle-bustle as it is today. Living outside with nature, he was brought directly in touch with the forces of Creation, and without all those phone calls to interrupt him, he had plenty of time to develop a theory.

As you might guess, the Sun and Moon were rather important to his daily life style and he recorded characteristics of power he thought them to have.

Studies of ice Age bone markings suggest that man was aware of lunar periodicity as far back as 32,000 years ago. There are fragments of documents surviving from the reign of Sargon of Agade, in Babylonia, showing predictions according to the Sun and Moon and five known planets.

The ancient Egyptians have left an enormous amount of historical data with reference to the Twelve Houses of Life, today's twelve houses of the "Zodiac." The advanced Egyptians mathematicians were able to calculate constellations and planetary positions without the assistance of modern day telescopes and calculators.

THE MONUMENT at Stonehenge in England has been dated at 2500 BC. It's accepted by Archeological scholars as a gigantic megalithic computer used to read the positions of the heavenly bodies as they travelled their paths. Built by the "Beaker People" and still usable, its first uses appeared to be Astrological.

These are facts, not some brainstorm of modern man's more kooky society. I think they're rather impressive thoughts too, and I didn't even mention the Mayan observatory, calendar and Astrological data; the pyramids, the very sophisticated usage of Ancient Rome, or the Greek empire.

Astrology, as a Science, had a pretty formidable beginning. I grant you the past few centuries have beat it around quite a bit particularly the current one, but I think we sometimes forget how intelligent ancient man was.

We ooh and aah at museums and wonder at the architectural phenomena they've left us. We hold much of the ancient truths in great esteem, we've built our civilization on the knowledge they left us, but it's rather difficult to accept the foundation of Astrological teachings they set for us.

Well, this isn't really hard to

understand. As civilization became more sophisticated, and man more self-sufficient, mankind saw itself as an entity apart from the whole of the universe. With the dawn of Christianity, Spiritual beliefs became more organized and as

soon as man began to distribute the previously spoken "Word" of the Bible, disagreements arose as to its interpretation. (And God does know that that's still going on!)

Onward through the ages

Please turn to page 12

Her Place

MODELS DISPLAY some of the outfits to be seen on Thursday, Apr. 17, at the Emmons Parents Club's "Spring Fashions '75." From left: Beverly Kramer, Fran Colette and Jan Ranney. Beverly is wearing a polyester coordinate pantsuit by White Stag. Jan, at the right, has a slack and sweater set from the Jantzen "Picnic Checks" group. These and many more fashions from the Four Squires of Antioch will be featured. The dinner and fashion show will begin at 6:30 p.m. at Brae Loch Country Club in Grayslake. Tickets are being sold in advance only, by calling 395-0957. The donation is \$7 and there will be prizes galore, donated by local merchants.

Your Horoscope

Baseball Players Sign Up

Final dates for signing up for minor, Little League and Babe Ruth baseball have been set for Friday, Apr. 11, from 6:30 till 9 p.m. at the Scout House, and Saturday, Apr. 12, from 10 a.m. till 3 p.m.

Anyone signing up after these dates will be put on a waiting list and will be placed on teams only as openings occur.

Tryout dates have been set for Saturday and Sunday, Apr. 19 and 20. The schedule is:

Apr. 19 - 9 a.m. till 12 for 9 year olds.

Apr. 19 - 1 p.m. till 4 p.m. for 10 year olds.

Apr. 20 - 1 p.m. till 4 p.m. for 11 and 12 year olds.

All tryouts will be held at the Little League field.

Babe Ruth tryouts will be held at 2 p.m. on Sunday, May 4, at the Antioch High School field. Anyone interested in helping at the tryouts can contact Bernie Gutowski, league president, at 395-0864.

WELCOME TO APRIL, ANTIOCH -- The optimistic had thought spring was here, but we got socked by 10 inches of snow last Wednesday. Besides shoveling the heavy stuff off our sidewalks and out of our driveways, we found it difficult to get to work. And, of course, our cars were buried in snow, too. But, finally, winter is over. We don't expect anymore snow this month. But then, who knows?

Astrology

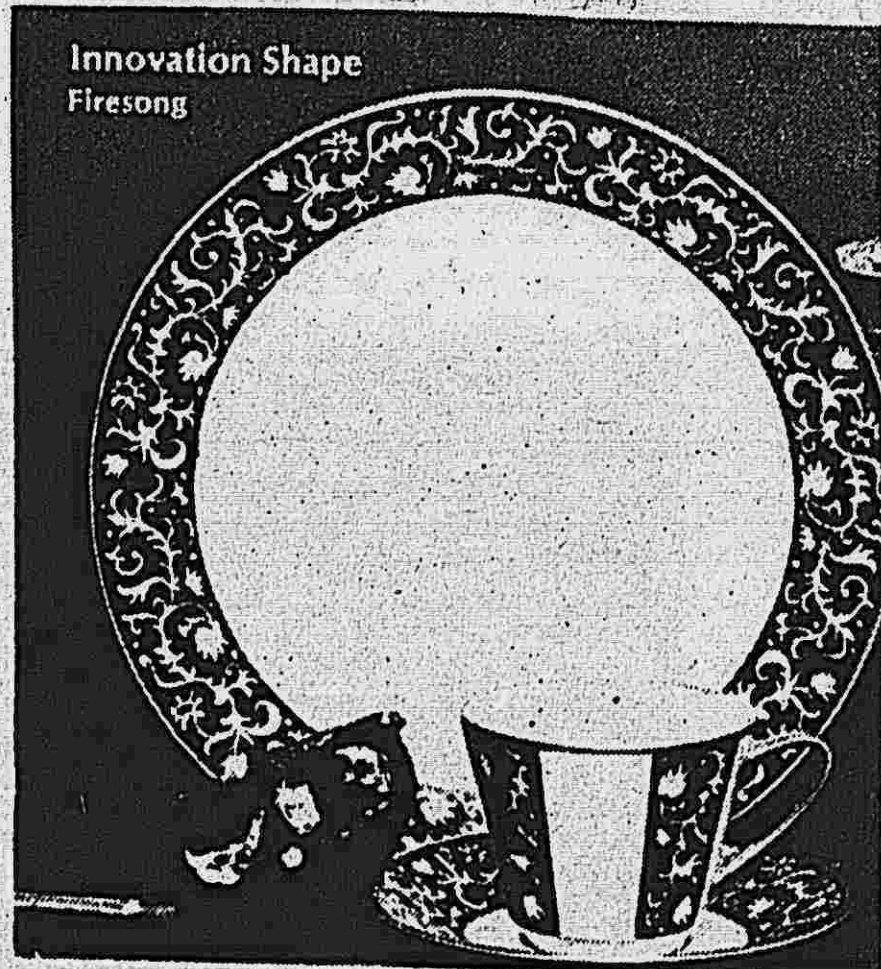

Continued from page 11

mankind has, as he did in Mesopotamia in 800 BC, reached out spiritually and scientifically trying to find his place in Creation and had his theories established, polished, altered, changed radically and reintroduced time and again.

But, what I'm getting at is that somehow Astrology, as a Science, or what have you, has continued to make sense to enough people, that it is still with us.

So, it really isn't modern day hocus pocus, it's Ancient hocus pocus, or maybe there's more to it than that. Well, maybe!

Along the way with ANNIE MAE

Everyone is still talking about the lovely decorations that enhanced the St. Peter's Social Center last Saturday evening for the Oakwood Knolls Annual Spring Dance. Hear tell the men were dressed as fashionable as the ladies. Arnie Weber, Irv Walsh, Bill Seemann, Mike Haley and Henry Meyer drew the names of the lucky prize winners - seems a couple of the ladies had a lucky streak, going home with several prizes each. I'll bet Frank and Roberta Warren will get lots of use out of the 8-track stereo tape player while driving to their new home in Los Angeles, CA. Super music by the "Shelter" and lots of good food made for a perfect evening.

As the members of the Antioch Methodist Church were arriving for church last Sunday morning, their minister was leaving - seems Rev. Williams and Rev. McPeck of the Milburn Congregational Church exchanged pulpits for the day. However, Steve was able to say hello to everyone as the service in Milburn didn't start until 11 a.m. Confused a few people eh....

Congratulations to Bernie Fosmark who was ordained as a minister in the Evangelical Free Church last Sunday morning. The new pastor's father and father-in-law both participated in the service - a very happy day for the entire family.

CONGRATS ARE also in order for three area couples - Steve and Rhonda Wapon became parents of a baby girl on Friday, Mar. 28. Brandi Ann was born at 2:40 a.m. at Lake Forest Hospital. The little lady weighed 9 lbs. and was 22" long. This is the first child for the couple and I must say "a much awaited baby" at Antioch Community High School. The kids and all the staff send you a big hello Rhonda - be sure to bring the little lady in for a visit soon.

Mr. and Mrs. Howard W. Lancour of Troy Center, Wis. welcomed a son, Howard Willard Jr., born on Mar. 18. Mrs. Christine Lancour is the daughter of Mr. and Mrs. Lowell F. Smock (nee Gertrude Horton) of Trevor, Wis. Great grandparents are Mr. and Mrs. Joseph E. Horton.

A son, Justin Marco, was born to Mr. and Mrs. Charles F.

Calabrese of Rt. 3 in Antioch on Mar. 3. Maternal grandparents are Mr. and Mrs. Everett D. Carter of Antioch and the paternal Grandmother is Mrs. Ann Calabrese of Chicago.

Mr. and Mrs. Ed Vos of North Main Street have just returned from a six week vacation in Maui, Hawaii. Had a wonderful time - it's as gorgeous as ever.

Get wells to Chris Libert who is recuperating from surgery in Lake Forest Hospital and to Reggie Szymanski who is in Condell Hospital in Libertyville. Also to Ray Jenssen who is in Victory Hospital after breaking his ankle the other day. How ya doing on those crutches guy? - some experience, eh!

This is one birthday Barb Gallaher and Donna Barth will remember for a long time. Over 30 of their friends threw a surprise party for them on Saturday, each gal thought the party was for the other. Games, fun and lots of good food....

Antioch Pack No. 192 Weblos would like to thank Troop 92 Scout Leaders for their invitation to spend a night sleeping on the snow-filled hillsides in Wisconsin and for the beautiful sleeping accommodations.

Nancy and Bill Georgeson are back after a fantastic trip to Acapulco - Now to get back to work

At a special meeting of the Lake Region Homemakers on Tuesday, Apr. 22, Mrs. Carol Barnes will conduct a "Workshop on Knits" beginning at 7 p.m. in the meeting room of the First National Bank. The newest technique in cutting, sewing and working with knits will be taught. Everyone is invited to attend. A small donation is required and

refreshments will be served. For more information, call Barb Miller at 395-2664.

Condolences to the James Leonhart and Charles Toman families upon the death of their loved ones.

WOW - I guess I forgot an important figure in the Young family when I mentioned "Mary Ellen's Little Gallery" - husband Bill is a partner too. Sorry, Bill, it's just that when we talked some time ago all you kept talking about is what a super gal Mary is!

George and Irene Hahn have returned from a fantastic trip traveling from Chicago, to New York, to Rio de Janeiro, to Johannesburg, South Africa. They visited jewelry manufacturers in Rio, purchasing Aquamarine and Golden Topaz and visited the Barclay Diamond Mine in Kimberly South Africa. Then on to Capetown, Johannesburg and Rhodesia where they were treated to beautiful scenery and while on a land rover trip in Rhodesia were able to view many of the wild animals.

After returning to Johannesburg, they flew to Nairobi, Kenya and went on an eight day safari, from here they traveled

to Ethiopia and then on the way home they stopped in Athens, Greece, Rome, Italy, Frankfurt, Germany and London. That's quite a trip I'd say - so many interesting places and so much to see.

BIRTHDAY GREETINGS to Joe Rush on the 9th, to Tom Poulos on the 12th, to Mike Grosson on the 13th, to Helen Zein and Mame Hunt on the 14th and to Wally Anderson, Jeanine Andrews, Bob Dunlap Jr., and Patti Wilton on the 15th.

Celebrating anniversaries this week are Betty and Jack Davis on the 9th and Dianne and Don Walsh on the 11th. Congrats - hope you have a very special day.

This is the last week for Little League baseball sign up - be sure to get it done this weekend.

Remember, the Antioch Community High School Spring Choral Concert will be held this Sunday at 3:30 p.m. in the auditorium. Also, the "Doc" Jensen Park in Sequoit Terrace Subdivision will be dedicated to the community on Sunday afternoon at 2 p.m.

If you haven't already seen the new PM&L production, "John Brown's Body," make your reservations now. A super show, I hear.

This Saturday elections will be held to fill vacancies on the grade school and high school boards. Be sure to vote for the candidates of your choice. Village elections will be held on Wednesday, Apr. 15.

Mark your calendars for the Woman's Club Card and Dessert Party on Apr. 14 at the Antioch Country Club - The Emmons Parents Club Spring Fashion Show on Apr. 17 at the Brae Loch Country Club.

See ya,
Annie Mae

Secure Your Home Against Robbers When You Vacation

People planning to take vacations this spring should take extra precautions to prevent home burglaries, warns Pinkerton's, Inc., the private security firm.

John Hitt, vice president for security, suggests taking the following steps to secure your home and make it appear that someone is there.

- Encourage neighbors to use your driveway for overnight parking. This will make it appear that you are home.

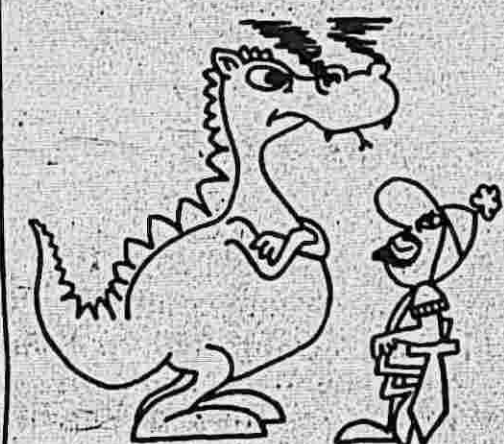

- Use automatic timing or electric eye devices to operate several house lights at night.

- Leave curtains open, at least part way. Closed blinds make an effective screen for the burglar once he is inside.

- Close and lock all doors, including the garage, tool shed and other work shelters. Use pin tumbler, cylinder locks on outside entrances and safety latches on windows. The main entrance should be bolted as well as locked.

- Stop all deliveries.
- Don't leave notes tacked up conspicuously for mailmen or other services.

Perform a death-defying act.

Stop smoking.

Shopping Spree

The Antioch Jaycees are sponsoring their second "Shopping Spree" at the Jewel Food Store. Tickets are 25c each or a book of 5 for \$1.

The prizes will be:
- 4 minutes or \$300 maximum.
- 2 minutes or \$150 maximum.
- A ham of your choice.
- A turkey of your choice.

The drawing tickets will be pulled by Mayor Robert Wilton on Apr. 26, and the Shopping Spree itself will take place on Saturday, May 3.

Tickets can be purchased at the Antioch Jewel Food Store and from local merchants.

Candidates for Grade School Board

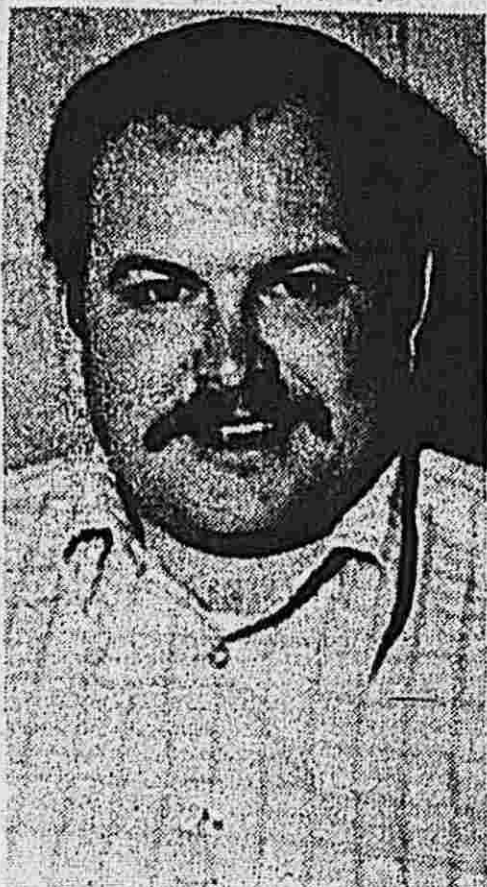

Continued from page 7

students the best possible foundation for the beginning of their educational life."

"Buildings, teachers, classrooms, class size and programs, including physical fitness, and special education for the students with special needs," are important, he said. He stressed "working together to build body and mind."

Mr. Olson said he also would like to see the board build better public relations.

"I feel that the public wants us to have the highest standards for our schools and will work to see that we reach and maintain them," he said.

William Slater

William K. (Bill) Slater has lived in Antioch for the last 26 years. He attended Antioch Grade School and then graduated from Antioch High School in 1962.

After high school, Mr. Slater attended Carroll College in Waukesha, Wis., with work toward a degree in economics.

Since that time he has held a number of jobs, which include Abbott Labs, Mortgage Assoc., a mortgage banking firm in Milwaukee and the Lake County highway Department. He was honorably discharged from the U.S. Army, having served two years in Berlin, Germany.

He opened Fur, Feather & Fin Pet Center in July of 1972, and has been there ever since.

Mr. Slater married his wife, Marilyn (Murrie), in 1965, and they have two sons: Bill, age 5, and Dusty, age 2. Marilyn is

also a lifelong resident of Antioch and graduated from Antioch Grade School and Antioch High School. She attended a liberal arts college and is a graduate of Bryant and Stratton Business College in Milwaukee.

"Since I am not presently a member of the Board of Education I do not feel it would be proper for me to comment on any of the issues facing the board until I have had an opportunity to familiarize myself with all aspects of them," Slater said. "I am running for the board because I have children about to enter the school system. I am interested in seeing that all the children in the school district get the best possible education without putting an undue tax burden on the taxpayers of the district, particularly those senior citizens who have already put their children through school."

LaVerne Woods

LaVerne M. Woods, the incumbent on the District 34 Grade School board, is the president of the First National Bank of Antioch. He became the bank's chief executive officer in 1966 at the age of 36.

Mr. Woods married Joyce Elaine Thurston in 1952 and they have three children: Dawn, 20; Lisa, 6; and Linden, 5.

They are members of St. Stephen's Lutheran Church and Mr. Woods has served on the church council for three years.

He was educated in New York state and has attended and

graduated from seven banking schools.

On two occasions Mr. Woods has served on the Antioch planning commission and he has served two terms as president of the local Chamber of Commerce.

He said he feels Antioch children deserve "the best education possible - not only reading, writing and arithmetic, but also the other things such as art, music, literature and, in the upper grades, shop and home economics."

"It has taken me a long time to appreciate things like Shakespeare and Bach," he

said. "I think we should at least give children some exposure to these things. Not all are equipped or want to go to college, but this does not mean they can't be useful citizens. We still need good mechanics, carpenters, plumbers, etc."

Mr. Woods said that "while a lot is being talked about zero population, I don't think that will be true of our area. We are in a dynamic and growing area, whether we like it or not. We can not afford to bury our heads in the sand ... there are at least four large developments that can affect our school district: CABL, the Santino development

at Antioch Country Club, Americana in Lindenhurst and another development on Deep Lake Rd. and Grand Ave. We are already crowded in some areas and these will mean more students. Maybe not as many as in the past, but at least a fair number."

Mr. Woods said he would like the community "to spend more time in its involvement in school affairs, by showing up at board meetings, and giving the board ideas, support and criticism."

"It is time well spent; the product is well worth it," he said.

ENJOYING THE SURPRISE PARTY for Charlie Haling were (from left) Police Chief Jack Wells, and Charlie and Helen Haling.

Charlie Haling: Mayor of Grass Lake

A surprise party was held for Helen and Charlie Haling Mar. 29 at Osborne's Lakeshore Resort.

More than 200 friends attended. Guest speakers were Bill Murphy, Bill Brook, Jack Wells, Mike Haley, Jim McMillen, Chuck and Ed Haling, and Ray Gallaher.

One of the highlights of the evening came when Chief Wells and Trustee Haley swore in Charlie as the mayor of Grass Lake. Charlie had his right hand raised and his left hand on a duck decoy.

WHEN GEESE AUSBIE of the Globetrotters (No. 35) got into a fake fight with the big New York Nationals player at the left, Geese called for help from the audience. Coming to his rescue was 8-year-old Craig Cermak (back to camera), who gave the rival a friendly punch in the tummy before returning to his seat.

MRS. WILLIAM E. BROOK

Mrs. Brook Heads Cancer Crusade

Mrs. William Brook has been named chairman of the Antioch American Cancer Society's 1975 educational and fund-raising Crusade and throughout the month the theme will be:

"We Want to Wipe Out Cancer in Your Lifetime."

Mrs. Brook, whose appointment was announced at the kickoff at the Black Angus Steak Ranch by Ted Bond, Lake County Crusade Chairman, will lead local volunteers in a community-wide effort to help teach families how to protect themselves against cancer, ask for support of the Society's vital programs on behalf of research, public and professional education and service and rehabilitation to the cancer patient.

"The promise of research is so great that the 1975 Crusade will be one of the most important ever. The dedicated people in the laboratories, the men, women and children suffering from cancer today, and our hopes for the future all depend on our willingness to

support the cancer fight," said Mrs. Brook.

Under her leadership, approximately 50 volunteers will visit friends and neighbors. They will distribute this year's Crusade leaflet, a cancer quiz, testing the public's awareness of ways to protect themselves against cancer.

"Our local volunteers are part of an army of 2,300,000 American Cancer Society volunteers mobilized for the 1975 Crusade. This is probably one of the greatest volunteer forces in history," Mrs. Brook said. "We want to take cancer out of the medical books and put it into the history books as something that afflicted people a long time ago!"

The goal for Antioch is \$1,700. The Lake County goal is \$251,640.

"Remember, when the volunteer calls, open your door, open your pocketbooks and give that others may live. Keep more alive in '75 is what we want to do," Mrs. Brook said.

REMINISCE Strike up the band

By HELEN M. PAGEL

Everybody loves a band. Well, almost everybody does. There is something about the blare of trumpets, the clash of cymbals and the roll of the big bass drum that stirs your blood and makes you want to go marching along, too.

Very likely there are just as many bands today as there were years ago only they aren't quite so much in evidence. It would be practically impossible for a band to go marching down the street today just for something to do. It takes a committee and a council meeting and a permit or maybe a city ordinance to stop traffic long enough for the band to pass by.

Otherwise, either the band or the traffic would be annihilated. There just isn't room enough in the street for both.

But back around 1910 that problem didn't exist. During the day the traffic on any given street at any given time usually consisted of a light wagon driven by a delivery boy with somebody's groceries, a lady driving primly to town in a top buggy to do the weekly shopping, and two or three dogs. In the evening even these activities usually came to a halt. People were at home eating supper.

Consequently, if the band felt like marching down the street, they marched, and everyone rushed to his window to see them go by. That is, the grownups rushed to the windows.

The youngsters more often rushed to the doors and followed after the band until it turned into some building or disbanded and the magic music ended.

And the net result of the expedition was that the youngsters must have a band of their own. Nowadays, of course, there are bands in most schools and any student who is musically inclined can choose his own instrument, take lessons furnished by the school and in no time become a full-fledged member of the school band. But things were different 60 years ago.

Little girls took piano lessons if their parents could afford it, and some boys were lucky enough to own a drum which they learned to play mostly by the trial and error method which produced plenty of noise if nothing else. But so far as other instruments were concerned, you had to study piano for years and show considerable talent at that before your parents were about to lay out good money for a slide trombone or a clarinet or some other exotic instrument.

But did this stop the neighborhood youngsters from having a band of their own? It most certainly did not. If you want something badly enough there is almost always a way to get it, and so, lacking professional instruments and the knowledge to play them if you had them, children invented their own.

Everybody owned a comb, and if you covered it with tissue paper you could produce the most amazing sounds by blowing on it.

Everybody owned a comb, and if you covered it with tissue paper you could produce the most amazing sounds by blowing on it.

YOU CAN MAKE IT

Regretting past is self-defeating

By VERNON E. BROWN
Copley News Service

There's just too much regret in the world today.

To me, being concerned is fine; however, regret is time-consuming and self-defeating.

Recently I got involved in some heavy things and some big trouble which has had an effect on my life as well as those in my family.

At first I thought the world was coming to an end and I was alone without friends. It took a long time, but I finally realized that feeling sorry for myself wouldn't solve anything and that I had wasted valuable time regretting events I could not change and an outcome over which I had no control.

So today I am about the business of living life as if it's all new.

Throughout recorded history men and women have had to deal with problems and setbacks. It doesn't matter if you're a sharecropper in Mississippi or president of the United States; setbacks occur.

Whenever something happens in your life which you feel is bad, and you feel you cannot make it, stop and look around and you'll see that there are lots of people who are worse off.

Our country has many grave problems facing it. The food crisis is serious, but we still are able to eat. The price of gasoline goes up almost daily, but we still drive our cars.

Unemployment is rising, but there are many jobs which go unfilled. They may not be the types of jobs we want, but they mean employment.

I want to challenge all people in all walks of life not to be consumed by thoughts of regret over past events, but to become the kind of dedicated people who made our country great.

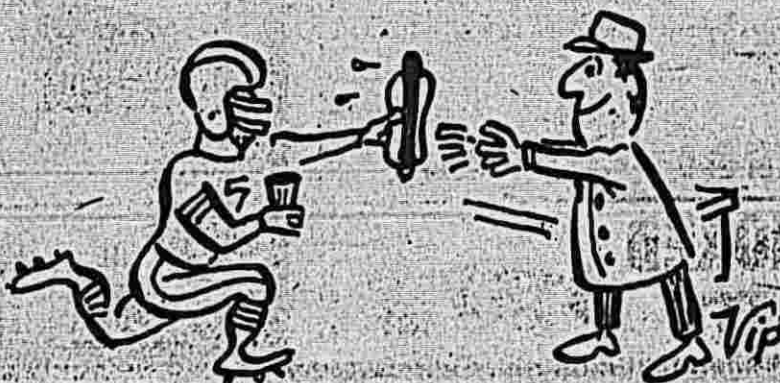

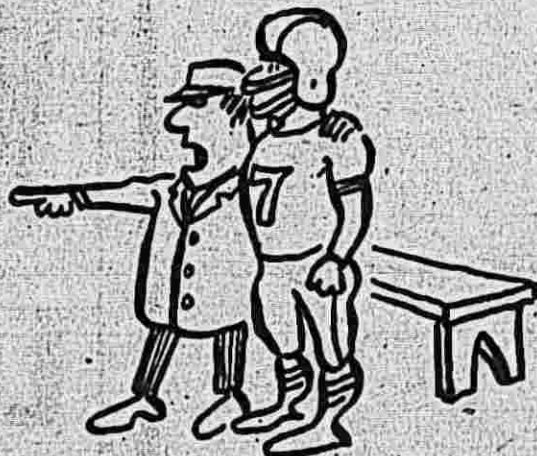

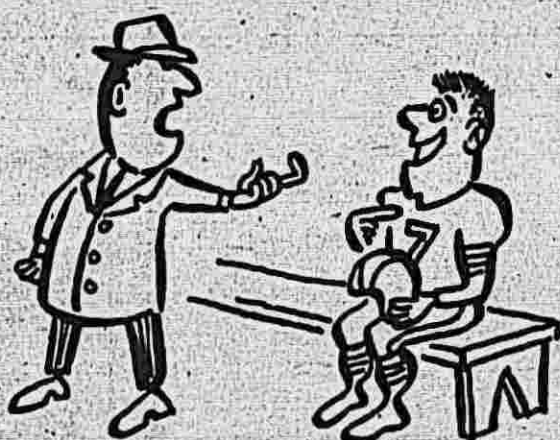

I am reminded of the words of the father of the late Dr. Martin Luther King Jr., which have given me support during difficult days.

Shortly after the deaths of his two sons, Martin Jr. and A.D. King III, who drowned, the senior King, then 70, was in Los Angeles speaking to an organization.

A reporter asked him if he was bitter and did he feel that God had forsaken him.

His response was no, he was not bitter because he was able to look around him and see the wonderful things he had left in his life. More recently when his wife was shot down in cold blood in church, he still expressed the same feelings.

ABC's of Travel

By BARB CORBIN.

Fond memories of a good trip are often the basis of a repeat vacation; and since memories are frequently keyed to photographs, it may be worthwhile for you to read on.

Of course I can't tell you how to take pictures; will leave that to BJ Rush Studios after all those awards, but I can inform you of the various steps which can be taken to protect your film. Some x-ray security devices used at airports cause fogging and other light damage to high speed film.

PRESS REPORTS written by various professional photographers show that there is a wide variety of x-ray devices used in airports, domestic and international. The radiation put out by these machines also varies. Some don't radiate enough energy to damage film, but others do put out enough radiation to damage film and ruin pictures.

Since there is no way to tell which kind of device a passenger must pass through; it is recommended to prepare for the worst and protect the film. A new product on the market to protect film is called "Film-Shield" and is being manufactured by Sima Products Corp.

Film-Shield is a reusable, leadlined pouch which can be used to carry up to 22 rolls of film or six rolls of Super 8 movie film or eight packs of Polaroid. Since film in a camera; as I am told by Kodak, is also vulnerable to x-rays, a Film Shield will also hold most 35mm

or instamatic cameras, calculators, tape recorders and transistor radios.

ALTHOUGH THE pouch can also be used to protect medicines from x-ray damage, the company warns against using it to carry food because of the lead lining. The pouch is constructed by sandwiching a layer of lead foil between a barium-impregnated polyethylene and a polyester film.

The reason for going into detail on this is that I had three rolls of film as designated by Kodak's main office in Chicago destroyed from my India trip as a result of the various x-ray devices, for in the two weeks plus I was gone, 13 flights were involved. I have contacted Sima Products and hope to have these film bags at my office within the week. As I was told over the phone, they would only be about \$5 or less, which is very small after the acceptance of three rolls of color film being destroyed and many memories. For more information please call my office.

Barb Corbin

RESTAURANT FACTS AND FANCIES

It is believed the word "restaurant" (from the French word "restaurer," meaning "to restore") originated when a Parisian hotel master put up a sign in 1766 which said, "Come unto me, all of you who hunger, and I will restore you."

Restaurants provide portion-controlled condiment packets such as Kraft mayonnaise to help reduce the 180 pounds of food wasted by each American annually.

By the year 1980, it is estimated that half the American food dollar will be spent in dining away from home.

AMERICAN LEAGUE
Baseball's American League, composed of eight teams, was organized at Philadelphia Jan. 29, 1900.

Mr. and Mrs. David Longly

Patricia Gorlitz Weds David Longly

Patricia Gorlitz and David Longly, both of Mundelein, were married Mar. 15 at the United Methodist Church in Libertyville. They were united in marriage by the Rev. Eugene Carter.

Patricia's parents are Mr. and Mrs. Kenneth Wiedman of Antioch and David's parents are Mr. and Mrs. Lester Longly, also of Antioch.

The bride was given away by Mr. Wiedman, her stepfather. Miss Donna Harvey of

Mundelein was the maid of honor and Miss Nisa Outinen of Antioch the flower girl.

The best man was Mr. Larry Mattmueller of Forest Park.

After a reception at the Holiday Inn in Mundelein, the couple took a honeymoon trip to LaCrosse, Wis. They plan to live in Mundelein.

She is employed at Abbott Laboratories and David works for Jewel Food Stores. Both attended Augustana College in Rock Island.

Sequoits: Champions And Record Setters

In addition to winning 22 of their 28 games, the Antioch High School basketball team set some stunning records during the recent season.

Scott Kimball made 110 of his 184 shots from the field for a new basket-shooting record of 59.9 percent. He broke the old field goal percentage record of Mike Perrone, who hit at a 56.8 clip the previous year.

Perrone's accuracy was 58.8

percent this season and he led the Northwest Suburban Conference in scoring with a 20.4 average.

Mike Witt set a record for recoveries in one game, seizing nine against Lake Zurich. The old record was eight by Mark Andrews against Warren the previous year.

Witt also set a season record for recoveries - 101. Tyrone Wells had the old record of 98, set in 1965.

The Sequoits, coached by Roger Andrews, also established a conference record of 27 straight wins, spreading from 1973 to 1975.

Mike Witt led the team in assists this year with 142 and Kevin Walpole was right behind him with 139.

Following are the final conference standings, scoring leaders and some of Antioch's statistics.

NORTHWEST SUBURBAN (1974-75 Final)

Baseball Team Looks Good

Weather permitting, the Antioch High School baseball team has a home game scheduled Thursday.

Zion is slated to visit the Sequoits at 4:15 p.m.

Antioch's schedule also includes two games at Wauconda Saturday, starting at 10 a.m., and a home game against Grayslake next Tuesday at 4:15 p.m.

Coach Bill Seemann has a squad of 19 players who survived the original sign-up of 39. There are nine returning lettermen: Second baseman Terry Lear, relief pitcher Ron Jackson, outfielder and relief pitcher Jerry Popp, catcher John Bodin, Pitcher Gary Klean, outfielder Ron Sheedlo, third baseman Mike Perrone, outfielder Frank Pleviak (the team captain), and shortstop and pitcher Russ Albano.

LEAR HAS competition at second base from junior Tom McAvoy, whom the players are calling "Mr. Hustle."

Seemann says Albano has Dan Vos "breathing down his neck at shortstop" and there is

spirited competition for some of the other positions too.

"Vos has the best hands at shortstop I have ever seen at Antioch," said the coach, "and when Albano is pitching, shortstop will be more than adequately filled."

TEAM CAPTAIN Pleviak will be in left field.

"He is a sound ball player, has hustle and is a team leader," Seemann said.

The coach called Bodin, "in my judgement the best catcher in the county."

All-conference Mike Perrone is at third base and will be the infield leader, Seemann said.

The Witt brothers, Mike and Mitch, are both pitching and playing first base. Seemann is counting on Mike to be a starter and says "watching both of those boys working out at first base is a coach's delight."

"Mitch is a fine hitter, very strong," Seemann added.

He said the pitching staff will be led by senior Gary Klean.

"I feel we can put on the field nine ball players who can compete with any team in the

league," Seemann said. The team that makes the fewest mistakes will win the conference. We feel our team is just about even with Round Lake, Stevenson, Cary Grove and Grayslake.

These are only some of the comments Coach Seemann made this week about his players. The rest will be printed in next week's Antioch News.

Geothermal hole being dug in Idaho

BOISE, Idaho — The first geothermal program in the nation to try to tap water below 320 degrees Fahrenheit and use it for generating electric power is progressing as 24-hour-a-day drilling goes on in Idaho's Raft River Valley. Expected to be completed in early March, the 8,000-foot geothermal exploratory hole will cost about \$700,000.

The guy down the street says that quitting smoking is habit forming.

AN IMPORTANT PART of the atmosphere at Antioch High School basketball games this year was the team mascot, Ron Jackson, who symbolized the chief of the Sequoit tribe. The Sequoits might have scored their 22 victories even if Ron hadn't been there, but it wouldn't have been as much fun.

FIRST ONE IN Don't overpower your serve

By ED COLLINS

King Kong had the world's most pathetic serve. As strong as he was, Kong was never able to hit the ball faster than 18 miles an hour. When he followed it into the net, you could almost knock it down his throat.

The problem with Mr. Kong's serve was his overpowering strength — he couldn't relax. As he dropped the racquet behind his back, he squeezed the grip so tight he made sawdust. He couldn't seem to understand that to hit a forceful serve you don't have to force it.

Somebody once said aptly that you must "let the serve serve itself." The server's responsibility is just to start it properly.

If you make it through this magical pattern, you're guaranteed a good serve. But try as you can, you (and Kong) can't get the feel of this loop. All you can manage is a "semi-loop" — a grunt — and a push.

Try the "three finger serve." This promises to cure all "cement-mixer" arms. Hold the knob-end of the racquet with your forefinger, middle-finger and thumb. Pretend the racquet is the pendulum of a grandfather clock. Relax your arm. Make it seem like jello or spaghetti; let it dangle from your side. Now sweep the racquet-head through the motion without the ball. Can you feel the weight of the pendulum? After 15 practice swings, try hitting a ball. Instead of using the court, hit it into a fence or backboard. (If you try too hard to get the ball in the court you may regress to your "cement-mixer" serve.)

Be loose and sloppy. Let the racquet-head sink down behind your back and reach up to flop over the ball. (You may have to extend your service toss higher.)

Most everyone is familiar with the patch the racquet head should take. Some pattern it after a "figure 8" or a lasso throw. There's supposed to be a loop behind the back that has something to do with rhythm and potential power.

Globetrotters Delight Antioch Fans

The Harlem Globetrotters came to town last Thursday and their show was thoroughly enjoyed by a crowd of about 2,000 at the high school gymnasium.

The event was sponsored by the Antioch Chamber of Commerce and Industry and, from all reports, was a delightful success.

The Globetrotters won, of course. Their opponents, the New York Nationals, were behind by 40 points, 124 to 84, the last time anyone looked at the scoreboard.

The magic of the Globetrotters' presence was the important thing. They entertained the fans from the time they took the floor, to the tune of "Sweet Georgia Brown," until they stuffed in their last basket on one of their many trick plays.

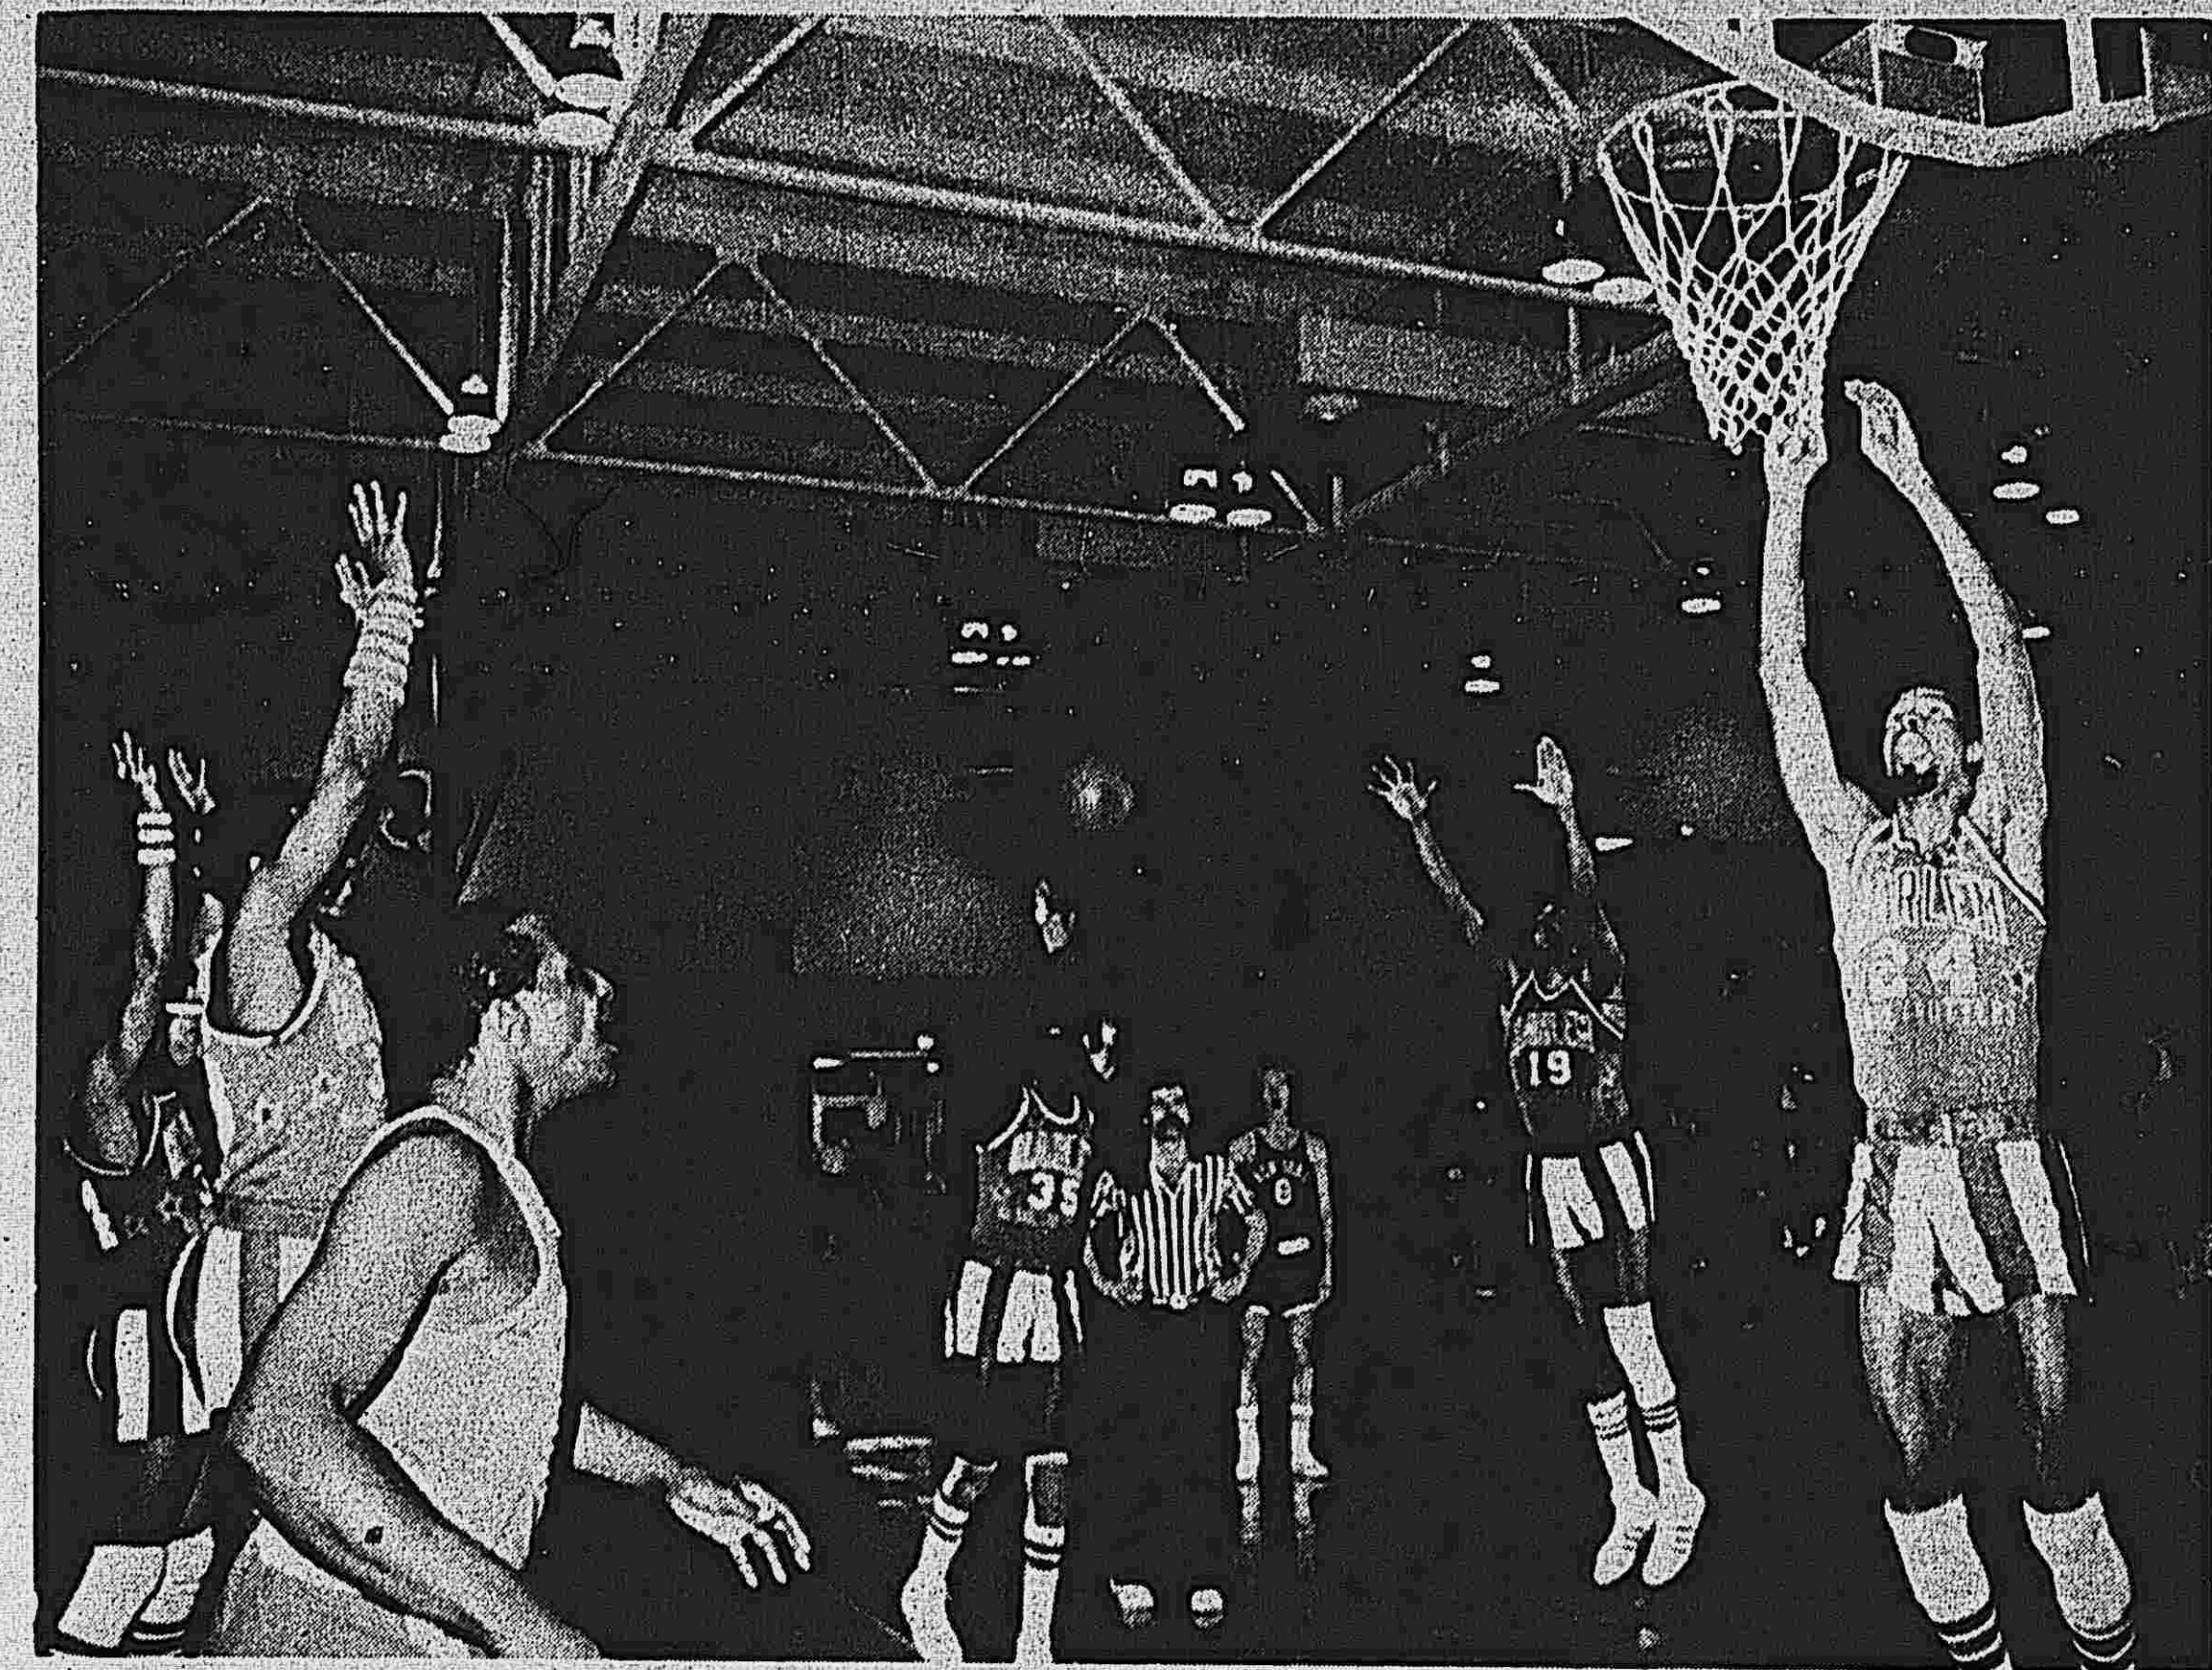

THE STAR of the show was "Geese" Ausbie, who spent most of the evening clowning with members of the audience.

Another famous Globetrotter, the veteran player-coach Marquis Haynes, appeared briefly and staged his amazing demonstration of dribbling.

MANY FANS and parents of eighth-grade players arrived early to see a "mini-tournament" of preliminary games, which began at 6 p.m.

In the openers, Emmons defeated Grass Lake and the Upper Grade School beat St. Peter's.

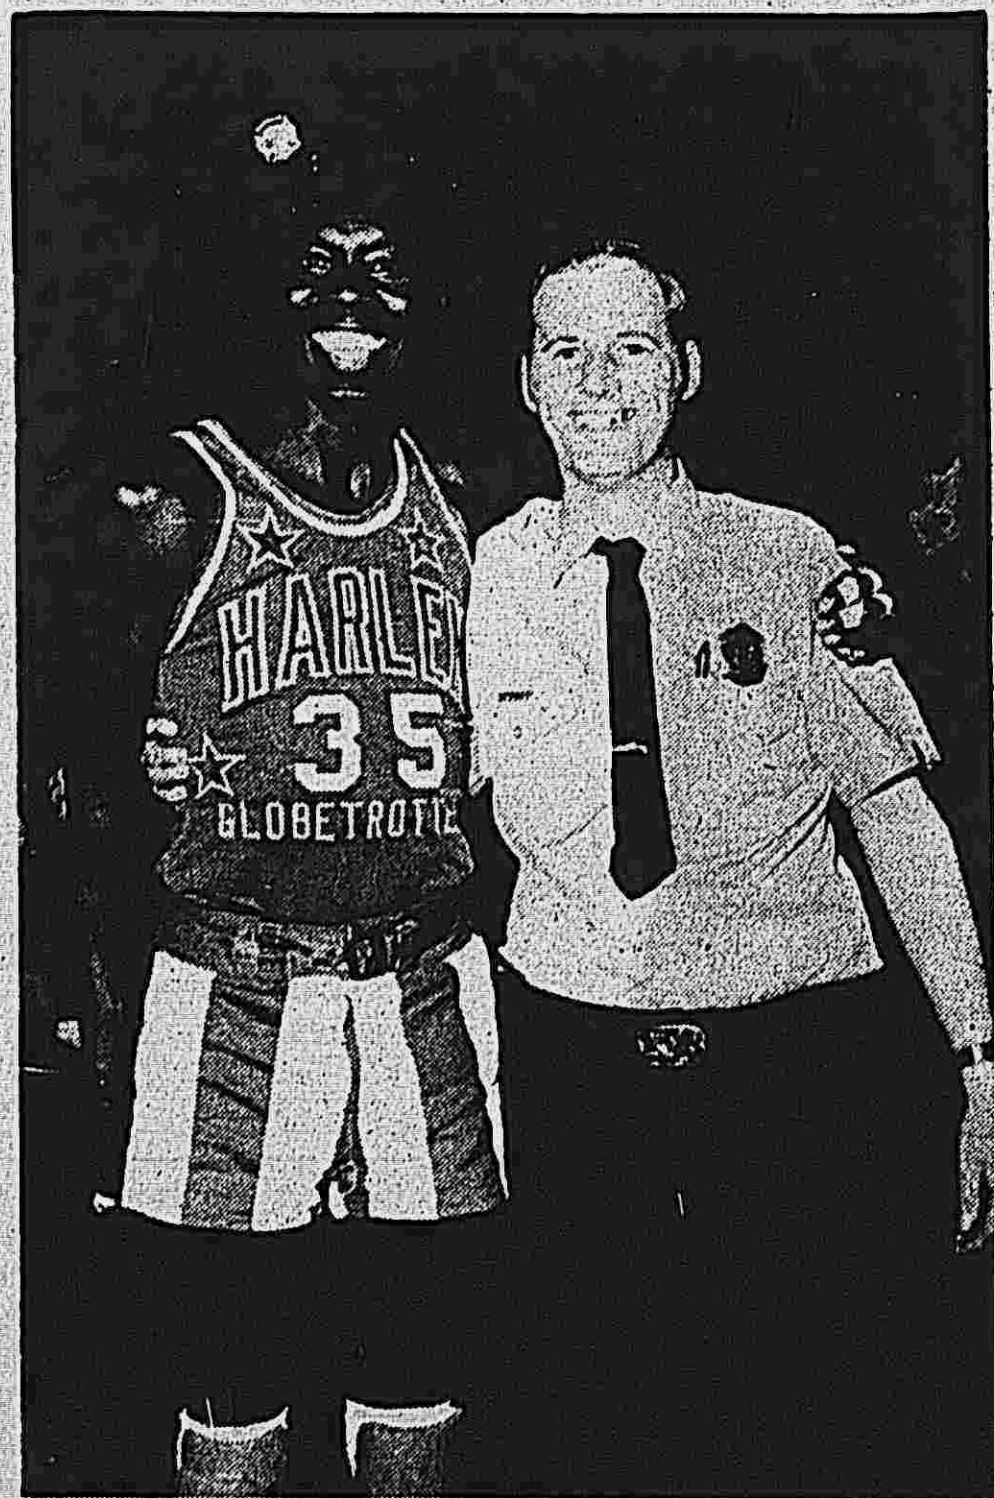

For the championship, the Upper Grade School almost upset Emmons, holding the lead during most of the game. But Emmons came from behind in the final minutes to score its

HARLEM GLOBETROTTERS and their opponents, the New York Nationals, leap for rebound as Geese Ausbie attempts a free throw. But the ball was attached to Geese's hand by a

large rubber band and never reached the basket. It was all part of the fun, witnessed by 2,000 delighted fans at the high school gym last Thursday.

17th straight victory of the season.

GLOBETROTTER CLOWN Geese Ausbie spent more time frolicking with the audience than playing basketball last Thursday, much to the delight of the fans. Here, he posed with Antioch Fireman Tom Borla, borrowing Borla's cap for the moment.

A stitch in time saves nothing if your needle isn't threaded.

THE HARLEM GLOBETROTTERS huddled around Antioch's Mayor, Bob Wilton, for this photo at the high school last Thursday night. Just

to the left of Mayor Wilton is Marquis Haynes, player-coach of the Trotters and one of the most famous dribblers in the history of basketball.

OUTDOOR TRAILS IN ILLINOIS State hunters had good deer season

By ART SCHUMANN

The recently concluded Illinois shotgun deer hunting season will be entered in the record books as just that — a record.

With hunters taking 10,340 whitetail deer during the first half of the split season in November plus another 3,539 in December, the 13,879 total surpasses by 149 the 1973 record.

Once again as in previous years, the most productive counties were in Southern Illinois. In Williamson County, 1,391 deer were taken while Pope County yielded 886 and Union 406.

The most productive counties in Central Illinois were

Pike (462), Adams (419) and Hancock (399). In Northern sections of the state, the Northwest counties of Jo Daviess (568), Carroll (380) and Rock Island (273) yielded the most deer.

Including the bow hunting season, the total number of deer taken in Illinois could be more than 15,000. In part, hunters can thank three straight mild winters for the deer hunting upswing. The mild winters have allowed the deer to winter well and produce a large fawn crop each spring.

The increased deer population is not only paying off in Illinois.

During Wisconsin's nine-day gun season in November,

some 100,000 whitetails were bagged, marking the first time the state has enjoyed a harvest that large since 1968. Central Wisconsin counties,

where the largest deer population is known to exist, once again were the most productive. Jackson County recorded the heaviest kill (5,205), while Waupaca County (4,900) and Wood County (3,912) were right behind.

Michigan also enjoyed a bumper deer season, recording the highest number of bucks taken since 1964. Preliminary figures show 71,800 bucks taken, which would make the season the 11th best in Michigan history.

The Michigan count breaks down like this: 11,900 from the upper peninsula; 46,900 from the northern lower peninsula and 13,000 from the southern lower peninsula. Antlerless deer totaled 4,000 — 1,000 from the northern lower peninsula and 3,000 from the southern lower peninsula. Antlerless deer hunting wasn't permitted in the upper peninsula this year.

Minnesota hunters also enjoyed a productive season with 64,859 deer being killed during the November season. More than 300,000 hunters took part and nearly 21 per cent were successful. The number of hunters was slightly higher than the 1973 total and the number of deer killed was slightly lower. In 1973, with 22.9 per cent of the hunters bagging their game, 295,691 hunters took 67,106 deer.

Minnesota aimed for a reduced kill this year by expanding its buck only zone and by closing hunting in parts of southwestern Minnesota. The state plans a similar season next year.

As usual, the deer season didn't escape without some very unusual deer being killed and hunters experiencing strange adventures.

Near Spooner, Wis., for instance, one hunter bagged a fine six-point buck that turned out to be a doe. A 17-year-old hunter dropped the deer with one clean shot. The hunter took the deer to the Spooner Ranger station. The rangers said they had heard of such a phenomenon, but had never actually seen such a deer.

Also in the Spooner region, a hunter bagged a three-horned, 13-point buck in the Middle McKenzie Lake area.

Rick Nelson Among 'Outstanding Athletes'

Seven Western Illinois athletes have been named in this year's publication, "Outstanding College Athletes of America."

The WIU selections are: Washington Bush (Maywood-Proviso East) - football, Rick Nelson (Antioch) - wrestling, Kevin McMurray (Chicago-Fenger) - swimming, Cory Lawler (Hillside-Proviso West) - swimming, Sean McManus (St. Louis, Mo.-Rosary) - soccer, Olie Fosdyck (Macomb) - golf, and Dennis Mantick (LaPorte, Ind.) - baseball.

Nelson, a two-time All-American, finished second this past wrestling season in the NCAA Division II at 167 pounds. He finished the regular season undefeated, 23-0.

MARY CHRIS LaKOME (facing camera), a star of past PM&L Theatre productions, is music director for "John Brown's Body," which opened last Saturday. Her 19-voice chorus enhances the show with American folk music and Civil War songs.

4 More Performances of 'John Brown's Body'

The opening performance of the current PM&L production, "John Brown's Body," was enthusiastically received by the audience of first-nighters who warmed the PM&L Theatre, 877 Main St. in Antioch, last Saturday night.

Four additional performances will be presented on Fridays and Saturdays, Apr. 11, 12, 18 and 19.

In making your reservations, be sure to remember that PM&L's new telephone number is 395-3055. Curtain time for all performances is 8:30 p.m.

FULL OF the fire and drama of the American Civil War, the production brings to the Antioch stage such tensely emotion-charged events as the First Battle of Bull Run, the Battle of Gettysburg, General Sherman's march to the sea and the burning of an old Georgia plantation estate.

"John Brown's Body" is

based on Stephen Vincent Benet's immortal epic poem, and also boasts a musical score written for the show by Fenno Heath.

The unusual production is thus a species of blend of epic poems, original composition, American folk music and Civil War songs. American characters great and small, from Abraham Lincoln to Jack Ellyat, from John Brown to Sally Dupre, fill the action-packed scenes. "John Brown's Body" is a fiercely American story and is, as such, a fitting preparation for the observance of the 200th anniversary of our national independence.

THE PM&L production is directed by Don Beveroth, ably assisted by Mary Chris LaKome as music director. Much of the striking music is produced by a 19-voice chorus accompanied by guitarist Frank Gaughan.

Don MacKenzie, Valerie

Hunley, and Lou Jones take the chief speaking roles. The members of the chorus are Betty Smouse, Pat Jamison, Aileen Biel, Lyn Zaehler and Nanci Eberman, sopranos; Eva Harper, Tessa Smith, Elmaria Beno, Jeri Di Marco and Barbara Beese, altos; Ken Smouse, Bill Baum and Nick Biel, tenors; and Frank Di Marco, Bob Quinn, Don Beveroth, Edward Harper, John Meyer and Earl Beese, basses.

This cast and crew of PM&Lers combine to make "John Brown's Body" a memorable experience, not only for the sheer drama and excitement of the production itself, but also as a worthy head start on the observance of our national bicentennial year.

To avoid disappointment, don't forget that PM&L's new reservations telephone number is 395-3055.

YESTERDAY'S STARS Kim's animals are focus of life

By NANCY ANDERSON

HOLLYWOOD — "If it's a good time for me, if my mare's not in foal and my animals are healthy, I'll come down and do a picture," Kim Novak said, "if, of course, I like the script."

"If the time is right and the material is interesting, I'm happy to work at least enough so that people won't forget me completely."

Forget?

Fat chance!

For Kim is the unforgettable blonde who hit Hollywood like lightning in the mid-'50s as, it was alleged, a replacement for Rita Hayworth, who raised eyebrows and started salacious talk through her honest kindness to Sammy Davis, who surrounded herself with lavender (or so the publicity department averred) and whose moon-beam hair set a fashion trend in cut and color.

But Kim is also a girl who deserted Hollywood while her star was still on the ascent to settle in the wilderness near Carmel, Calif., about 120 miles south of San Francisco.

She's come back occasionally — but only occasionally — to work, most recently in "Satan's Triangle," a movie for ABC television. And it was this film which inspired a recent interview.

"The picture is about the area off Florida where planes and ships disappear," Kim said, "and I found it interesting, because I've always been fascinated by the occult."

"At least, I like to keep my mind open to the possibility of everything."

Mostly, however, Kim's thinking and her activities revolve around her collection of

animals which she calls her "family."

At the moment the family includes five horses, three dogs, some cats, a myna bird, four raccoon and three goats, described by their owner as "very friendly."

At one time, a snake was part of the family, but it died.

Because of her animals, Kim moved from the first house she owned near Carmel to a home with more acreage.

"I have 100 acres," she said, "with a lot of it in pasture. It was my childhood dream to own horses, but for a long time I was too poor to lead the life I'd dreamed of."

"But now I own Arabian horses including my little boy and little girl, my stallion and mare. But I don't raise horses for sale."

"I first saw this part of California while I was making 'Vertigo,' and I fell in love with it."

While she was living in Hollywood, Kim reportedly preferred the simple life, rides on her bicycle (and that was before bicycling was so popular) and quiet evenings with a very few, carefully chosen companions.

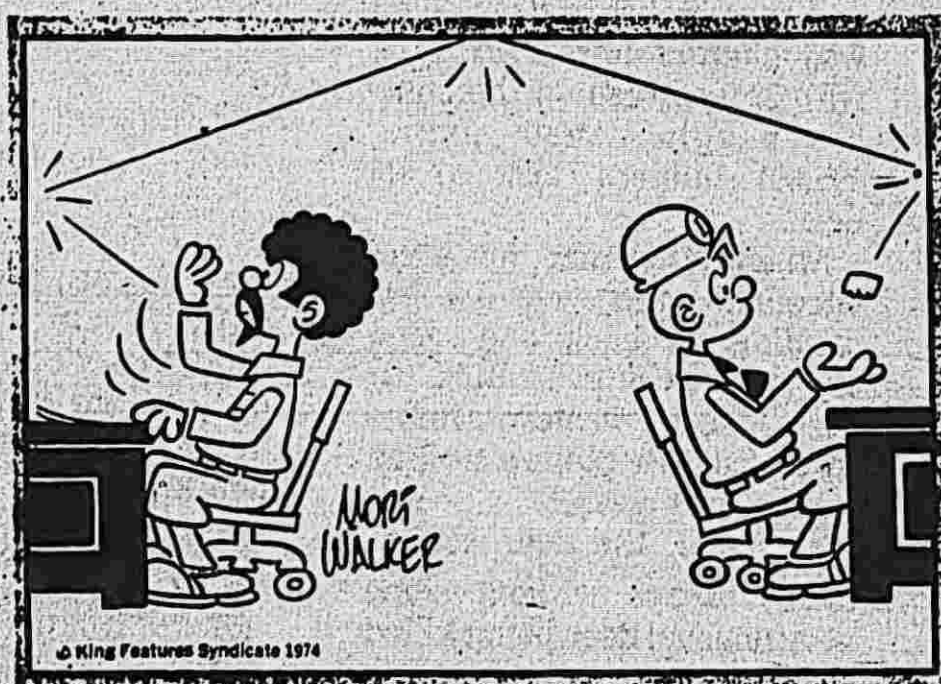

But Kim's Carmel existence makes her Hollywood lifestyle seem hectic.

"I have a very simple social life," she admitted. "Most of the people I know here are very much like myself. We have picnics sometimes, but we don't give big parties."

Asked whether she expects to marry again, Kim shrugged.

"I don't know," she said. "I might if I found someone who shares my ideas about animals."

"Recently I've been going out with two veterinarians."

Woman's Club Plans Dessert Card Party

Final plans are being made for the Antioch Woman's Club Dessert Card Party by co-chairwomen Louise Santino and Lillian Ackerman.

It will be held at the Antioch Country Club on Monday, Apr. 14 at 12:30 p.m.

A white elephant sale will be included and the public is invited. A \$1.75 donation will be collected.

ROSEMARY THURBER Sauers presented an enjoyable program on Mar. 17 about her memories and treasures she has of her famous father, James Thurber.

Slides of typical Thurber

cartoons and illustrations (with the stories behind some of the unlikely situations pictured) made the presentation entertaining as well as informative.

Hostesses for the meeting were the Mesdames Frank Rhode, Thomas Smith, William Barr, Terrence Boston, Richard Daniel, James Hamlin, Clarence Kufalk, G.F. Massoth, James Olsen, Raymond Toft, Matt Willems and Robert Gross.

The program for Monday's meeting was the Swing Choir from Antioch Community High School, under the direction of Ralph Brooke.

LEGAL

NOTICE TO BIDDERS

SEQUIOT CREEK ENCLOSURE, 19 C.S.

AND SEQUIOT CREEK ENCLOSURE SUPPLEMENTAL ANTIOCH, ILLINOIS

Notice is hereby given that the President and Board of Trustees of the Village of Antioch, Lake County, Illinois, will receive bids at the Village Hall, 876 Main Street until the 21st day of April, 1975, at 11:00 A.M. Daylight Savings Time, for the construction of the Sequoit Creek Enclosure, 19 C.S. and the construction of the Sequoit Creek Enclosure, Supplemental Project, at which time and place the bids will be publicly opened and read. Bids will be acted upon at the regular meeting of the President and Board of Trustees held at 8:00 P.M. Daylight Savings Time on the 21st day of April, 1975.

For the Sequoit Creek Enclosure, 19 C.S., the work to be done is as follows:

- Construct approximately 128 lineal feet of 102" Dia. reinforced concrete storm sewer type 2,
- Construct approximate 113 lineal feet of 128" x 82" oval reinforced concrete storm sewer, 40 lineal feet of which is in the open cut of the pavement of State Route 83,
- Construct two (2) junction chambers of reinforced concrete.
- Excavate approximately 825 Cubic Yards of material from the existing channel of Sequoit Creek,
- and necessary surface restoration and incidental work.

For the Sequoit Creek Enclosure, Supplemental, the work to be done is as follows:

- Construct approximately 406 lineal feet of 102" Diameter of 3" x 1" corrugated metal pipe 12 gage through an existing used car parking lot,
- Excavate approximately 1595 cubic yards of material from the existing channel of Sequoit Creek,
- and necessary surface restoration and incidental work.

All work is to be performed in accordance with the plans and specifications which are on file in the Village Hall, and at the office of Applied Engineering Company, 1450 South New Wilke Road, Arlington Heights, Illinois 60005.

All bids shall be submitted, on forms provided, to the Village Clerk on or before the time specified above. The Sequoit Creek Enclosure 19 C.S. project shall be awarded to the lowest responsible bidder meeting the requirements of construction under the Bureau of Local Roads, State of Illinois, for use of Motor Fuel Tax Funds. The Village reserves the right to award the Sequoit Creek Enclosure, Supplemental Project to the contractor who, in the opinion of the Village, would provide the best service in the performance of the project.

Each bid shall be accompanied by a check, drawn on and certified to be an acceptable Illinois bank in an amount of not less than five (5) percent of the total bid, made payable to the Village of Antioch, Illinois. Bid bonds or other substitutes will not be acceptable. The certified check shall be forfeited if the bidder fails to enter into a contract and furnish bond after his proposal shall have been accepted. The certified checks or unsuccessful bidders will be returned within 15 days of the award of the contract. The certified check of the successful bidder will be returned after he enters into a contract and furnishes a satisfactory performance bond.

The successful bidder shall furnish a performance and guarantee bond to the Village of Antioch in the amount of 100 percent of the contract.

Payment will be made in cash on the basis of approved progress estimates.

The work will commence within thirty (30) calendar days after date of written notice to proceed, and all work shall be completed within sixty (60) working days, after date of written notice to proceed.

The contractor shall pay labor employed on the work, not less than the prevailing wage scale as required by State Statutes.

Prequalification according to Section 102.01(a) of the Standard Specifications for Road and Bridge Construction of the State of Illinois dated July 2, 1973, shall be mandatory of all bidders on this project. No bidder will be allowed a Proposal unless he first submits a prequalification rating for Storm Sewer Construction of at least \$100,000.00.

The Village reserves the right to defer acceptance of any proposal for a period not to exceed thirty (30) days after opening of bids, and reserves the right to reject any or all bids, to waive informalities or technicalities in bid, and to accept the bid which it deems to be in the best interests of the Village of Antioch, Illinois.

Bid documents are available from the Village Clerk for a non-refundable charge of seven and one-half dollars (\$7.50) per project or fifteen (\$15.00) dollars for two (2) projects.

Obituaries

WILLIAM J. TOMAN, 20, of
 Felters Subdivision, Antioch,
 passed away Monday, Apr. 7 of
 automobile injuries received on
 Hy. 132 west of Hy. 45. He was
 born May 30, 1954 in Waukegan
 and had lived in Antioch all of
 his life. He is a member of St.
 Peter's Catholic Church. He had
 been employed as an autoclave
 operator by Abbott Labora-
 tories in North Chicago for the
 past two years.

He is survived by his parents,
 Charles and Elaine Toman of
 Antioch; one brother, Daniel
 (Jill) Toman of Charlotte,
 North Carolina; one sister, Mrs.
 Susan (Lee) Loecher of Bristol,
 Wis.

A funeral Mass will be said at
 10 a.m. today at St. Peter's
 Catholic Church in Antioch.
 Interment will be in Hillside
 Cemetery.

CHARLES BADGER, 55, of
 Trevor, Wis., passed away
 Monday, Apr. 7 at St.
 Catherine's Hospital in Kenosha.
 He was born on May 27, 1919 in
 Clinchburg, Va. and moved to
 Chicago in 1937, then to Trevor
 in 1952. He is a member of Cook,
 Lake & DuPage Counties
 District Council No. 1996 of
 Carpenters. He worked in the
 building trades as a carpenter.
 He married Mildred Taylor on
 May 15, 1943 in Chicago.

Survivors are his wife
 Mildred; two sons, Gilmer J.
 Badger of Kenosha and Russell
 J. Badger of Trevor; two
 daughters, Mrs. Kathleen
 (Gregory) Schmitz of Antioch,
 and Miss Nora Badger of
 Trevor; one brother; two
 sisters; and four grandchildren.

Funeral services will be held
 at 1:30 p.m. Thursday at the
 Strang Funeral Home in
 Antioch. Rev. Richard O'Neil of
 the Wilmet Methodist Church
 will officiate. Interment will be
 in Liberty Cemetery. Friends
 may call at the funeral home
 after 2 p.m. today.

MARIE J. TURNOCK, 72,
 passed away Monday, Apr. 7, at
 the Washington Manor Nursing
 Home in Kenosha. She was born
 on June 12, 1902 in Flora, Ill. and
 had resided in Evanston and
 Chicago before moving to Camp
 Lake in 1959, then she resided in
 Largo, Florida for a short time
 before being admitted to the
 nursing home. She had been
 employed by Walker C. Heller
 on the Chicago Stock Exchange
 for several years. She married
 James H. Turnock on Sept. 25,
 1929 in Chicago. She was
 preceded in death by her
 husband on June 13, 1963, two
 brothers and two sisters. Her
 only survivors are nieces and
 nephews.

Funeral services will be held
 at 10 a.m. Thursday at the
 Strang Funeral Home in
 Antioch. Rev. Richard O'Neil of
 the Wilmet Methodist Church
 will officiate. Interment will be
 in Liberty Cemetery. Friends
 may call at the funeral home
 after 9 a.m. Thursday.

DOROTHY (DORA) M. DIETZ,
 88, of Oak Wood Shores near
 Silver Lake, Wis. passed away
 suddenly on Monday, Mar. 31 at
 Burlington Memorial Hospital.
 She was born Nov. 9, 1886 in
 Chicago and resided there until
 moving to Salem in 1952, but
 had spent her summers here
 since 1941. She is a member of
 the Maple Leaf Rebecca Lodge
 No. 369 in Chicago. She married
 Charles B. Dietz on Aug. 5, 1905
 in Chicago. She was preceded in
 death by one brother and a
 sister.

Survivors are her husband,
 Charles B. Dietz; three sons,
 Charles (Esther) Dietz; Willard
 Dietz; and Edward (Jeanne)
 Dietz, all of Chicago; six
 grandchildren and 12 great
 grandchildren.

Funeral services were held
 Apr. 3 at the Strang Funeral
 Home in Antioch. Interment
 was in Ridgewood Cemetery in
 Des Plaines, Ill.

Too many drivers drink too much

Seven per cent of licensed
 drivers drink too much, ac-
 counting for nearly 30,000
 traffic deaths each year, says
 the National Highway Traffic
 Safety Administration.

A new device from General
 Motors would weed out the
 worst offenders by requiring
 them to punch in a set of five
 random numbers correctly
 before the ignition key would
 work.

ACHS Plans Open House

There will be an open house next Wednesday, Apr. 16, at Antioch Community High School, from 7:30 to 9:30 p.m.

In conjunction with the Annual Art Fair and the P.T.A., several departments will have exhibits and conduct activities in various areas of the building. The purpose of the open house is to make it possible for parents and the community to learn more about the curriculum of the school. The activities will be performed by students.

At 7:30 p.m. the P.T.A. will conduct a short business meeting and Gil Krahn, Past President, will install officers in the Commons. The Acappella Choir will perform. Awards for the best art work on display will be made. A trophy for the student work judged "Best of Show" will be presented by Mrs. Doris Surrock.

Mrs. Jane Craner, art teacher will be in charge of the displays set up in the Commons.

The remainder of the evening will be open for attending the demonstrations prepared by

departments. Directions will be given at the general meeting.

The English department will video tape student speeches, show theme correction using a projector and have Studio Theatre practice.

Mathematics will show and discuss two short films.

Science will provide demonstrations by students, labs on dissection, and other activities such as testing water samples.

Social Studies and U.S. History students will be role-playing involving stock market activities. Also, samples of students' work will be on display along with films, film strips and video tapes used in

classes.

Business Education students will be working on projects in Typing, Business I, Accounting and Business Law classes.

The Office Procedures students will be working in their simulation project.

Home Economics will display projects, including stuffed animals and have a style show by students of garments they have made. All visitors to Home Ec. will be treated with snacks and refreshments made by students enrolled in food preparation classes.

Guidance information on peer-counseling and decision-making also will be presented.

We Won't Hit Newsstands

Till Wednesday Next Week

The Antioch News normally goes to press Tuesday evening, appears on the newsstands Tuesday night and is received by subscribers in Wednesday's mail.

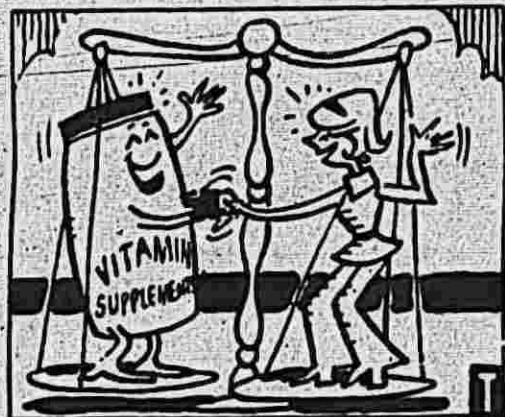

Next week, in order to cover Tuesday's election, we won't go to press until 11:30 p.m. on Tuesday. Subscribers will receive the paper on Wednesday as usual, and we'll reach the newsstands Wednesday morning instead of Tuesday night.

Film Is a Spacesaver

Do you know what microfiche is? It's best described as mini-microfilm. The heart of the system is the fiche itself, a 4"x6" film miniature that can hold information contained on 270 sheets of 11"x14" computer printout paper. A single 24-square inch fiche contains the same amount of information normally recorded on 288 square feet of paper.

Medicines Can Increase Need For Vitamins

While most people recognize that illness robs their bodies of vitamins and strength, far fewer know that medications prescribed for illnesses sometimes cause vitamin deficiencies too.

Penicillin, for example, lowers the level of vitamin A in the blood. Diuretics cause excessive losses of the B-complex vitamins and vitamin C. Certain sulfa drugs and some antibiotics alter the vitamin production process in the intestines and can create deficiencies of vitamin K.

Studies have shown that such medications also affect the flora production of biotin, a B vitamin recently recognized as essential for human nutrition by the National Academy of Sciences' Food and Nutrition Board.

Scientists at Hoffmann-La Roche Inc., a leading producer of vitamins, report, however, that their review of the literature indicates that vitamin supplements can assist in maintaining proper vitamin balance within the body during periods of illness and recuperation.
